Aftercare V58.9

orthopedic V54.9

following joint ~~replacement V54.81~~

explantation of prosthesis (staged procedure) V54.82 This code has been corrected
replacement V54.81

Anaphylactoid reaction or shock ~~or reaction~~ - see Anaphylactic reaction or shock **Line has been corrected**

Anomaly, anomalous (congenital) (unspecified type) 759.9

origin

pulmonary artery 747.39

pulmonary 748.60

This line was missing on the original addenda

artery 747.39

circulation 747.39

Arteriosclerosis, arteriosclerotic (artery) (deformans) (diffuse) (disease) (endarteritis) (general) (obliterans)

(obliterative) (occlusive) (senile) (with calcification) 440.9 **This line was missing on original addenda**

coronary (artery) 414.00

due to ~~lipid rich plaque 414.3~~

calcified coronary lesion (severely) 414.4

lipid rich plaque 414.3

Arthritis, arthritic (acute) (chronic) (subacute) 716.9

due to or associated with

serum sickness 999.59 [713.6]

thalassemia (*see also Thalassemia*) 282.40 [713.2]

This line was incorrectly located

reactive 099.3

serum (nontherapeutic) (therapeutic) 999.59 [713.6]

Complications

The following two lines should not be on the addenda - they were not modified

stoma, external

gastrointestinal tract

Infiltrate, infiltration

pulmonary 793.19

with

x-ray finding only 793.19

This line was not properly aligned

Stenosis (cicatricial) - see also Stricture

myocardium, myocardial (see also Degeneration, myocardial) 429.1

hypertrophic subaortic (idiopathic) 425.11

nares (anterior) (posterior) 478.19 **This line should not be on the addenda - it was not modified**
