Universities in Canada using ICF in their course material
November 2002

University	ICF use	Contact Person
Queens University Kingston, Ontario	ICF is one of the textbooks for RHBS 221 Introduction to Disability and Rehabilitation. I use the ICF extensively and almost exclusively in my course; indeed, it is the backbone of the course and the foundation of every assignment and the final exam. The course is Introduction to Disability, RHBS 221. It is a required half-credit course for rehab students, an elective for others, and has an enrollment of 100.	Barbara L. Roberts, M.Sc. OT Reg. (Ont.) Disability Services Advisor LaSalle Building 146 Stuart St. Queen's University Kingston, Ontario K7L 3N6 voice: 613-533-6467 TTY: 613-533-6566 fax: 613-533-6740 [mailto:robertb@post.queensu.ca]
	I use it in OT 402 and RHBS 802*	Wendy Pentland, PhD Associate Professor School of Rehabilitation Therapy Faculty of Health Sciences Queen's University 13 George Street Kingston Ontario K7L 3N6 Tel: 613-533-6723 Fax: 613-533-6776 Email: pentland@post.queensu.ca

University	ICF use	Contact Person
<p>McGill University Montréal, Québec</p>	<p>I am using the ICF classification in two courses at McGill University. Both have Physical Therapy and Occupational Therapy students. One course is Assessment in Rehabilitation I (POTH 239) where a guest lecturer, Dr. Nicol Bitensky introduces them to the most recent version of the ICF and has them use the website to complete an assignment. The other course is a Musculoskeletal applied course, where students define their role as OT's or PT's based on the ICF model.</p>	<p>Sylvie Beaulieu, MSc, OT Faculty Lecturer School of Physical & Occupational Therapy McGill University 3654 Promenade Sir William Osler Montreal, PQ, Canada H3G 1Y5</p> <p>sylvie.beaulieu@mcgill.ca phone: (514) 398-5590 fax: (514) 398-6360</p>
	<p>Yes, I use it</p>	<p>Nancy Mayo [mailto:nancy.mayo@mcgill.ca]</p>
	<p>The ICF and its role is mentioned in my course OCC1-235 'Occupation as Therapy' at McGill. the ICF is not looked at, only its purpose is being introduced.</p>	<p>Erika Gisel Ph.D., OTR, erg. Professor Faculty of Medicine School of Physical and Occupational Therapy McGill University 3630 Promenade Sir-William-Osler Montreal, Qc H3G 1Y5 Tel.: (514) 398-4510/4512 Fax: (514) 398-8193 e-mail: erika.gisel@mcgill.ca</p>

University	ICF use	Contact Person
	<p>We use the ICF as a framework for our occupational therapy students. In the course that I teach together with my colleague Dr. Isabelle Gelin, we focus on interventions for individuals with neurological conditions. We refer occasionally to the ICF model, to ensure that students consider all aspects of functioning and health. The course is called OT Practice II: Neurological conditions. It is a second year course for OT students at McGill University. They are first introduced to the ICF model in the beginning of the first year.</p>	<p>Annette Majnemer PhD, OT Associate Professor School of Physical & Occupational Therapy McGill University 3654 Promenade-Sir-William-Osler Montreal, Quebec, H3G 1Y5</p> <p>Office: 514-398-4515 fax: 514-398-6360 Lab: 514-412-4400, ext. 22902 fax: 514-412-4373 Email: annette.majnemer@mcgill.ca</p>
	<p>I do present a very brief introduction to the ICF (less than 10 minutes) and the students are given an assignment to complete using the website. They must use the ICF to find definitions of the key terms and contrast them with the old definitions from the WHO using a case of a young child with visual impairment - It is for an Assessment in Rehabilitation course offered to U1 students.</p> <p>I must say though that the ICF website is not easy for students (nor pros for that matter) to understand. Hard to find and understand the key terms.</p>	<p>nicol.bitensky [mailto:nicol.bitensky@staff.mcgill.ca]</p>

University	ICF use	Contact Person
	I am not using it. I teach the 3 constructs but find it an impossible document to read.	<p>Sharon Wood-Dauphinee, PhD, PT School of Physical and Occupational Therapy McGill University 3630 Promenade Sir-William-Osler Montréal, Québec Canada H3G 1Y5</p> <p>Tel: (514-398-5326 Fax: (514) 398-8193</p> <p>E-mail: sharon.wood.dauphinee@mcgill.ca</p>
	I use it in Movement Science and Practice PHTH 235	<p>Diane St-Pierre, PhD Associate Director, Graduate Program Rehabilitation Science School of Physical & Occupational Therapy 3654 Promenade Sir-William-Osler Montreal H3G1Y5 Phone: 514-398-5588 Fax: 514-398-6360 email: diane.st-pierre@mcgill.ca</p>
Université de Laval Québec City, Québec	I use the ICF process of analyzing a disability in a rehabilitation course on the elderly	<p>Line Robichaud [mailto:line.robichaud@rea.ulaval.ca]</p>
	I introduce the model to first year occupational therapy students.	<p>Genevieve Pepin, M.Sc., erg. Etudiante au doctorat / Medecine experimentale Chargee d'enseignement Departement de readaptation Pavillon Ferdinand-Vandry, local 2102 Universite Laval Tel.: (418) 656-2131 poste 4918 Fax.: (418) 656-5476 Courriel : Genevieve.Pepin@rea.ulaval.ca</p>
Dalhousie University Halifax, Nova Scotia	We have all switched over from ICIDH-1 to ICF terminology (in general; we don't get into the nitty gritty of the classification). This gets used whenever we teach about rehab issues, so there is no specific course number.	<p>R. Lee Kirby, MD, FRCPC Division of Physical Medicine and Rehabilitation Dalhousie University c/o Nova Scotia Rehabilitation Centre 1341 Summer Street Halifax, NS B3H 4K4 Canada Phone: 902-473-1268. Fax: 902-473-3204 E'mail: kirby@is.dal.ca</p>
University of Manitoba	We use the ICF classification in a number of our courses; 68.173 Physiotherapy Management(Cardiorespiratory) 68.170 Psychosocial Issues	<p>Gisele Pereira Acting Head, PT Division School of Medical Rehabilitation University of Manitoba tel:(204)789-3417 faX:(204)789-3927 e-mail:gpereira@cc.umanitoba.ca</p>
	I teach course 68.245 Research Methodology for	<p>Juliette E.Cooper, Ph.D., OT(C) Professor and Director</p>

University	ICF use	Contact Person
	<p>Medical Rehabilitation and in the course there is are sections on evidence-based practice and outcome measures. In these sections I talk about the need for models on which to base appropriate evaluation and intervention. I compare and contrast the ICF and use them to show the difference in appropriate outcome measures and interventions for each of the concepts of the two models.</p>	<p>School of Medical Rehabilitation University of Manitoba R118 - 771 McDermot Avenue Winnipeg, MB R3E 0T6 CANADA</p> <p>Telephone: (204)789-3371 FAX: (204)789-3927 e-mail: jcooper@ms.umanitoba.ca web page: http://www.umanitoba.ca/medicine/medrehab/</p>
	<p>68.370 Fundamentals of Physical Therapy Management(Neurogeriatrics)</p>	<p>Ruth Barclay Goddard</p>

University	ICF use	Contact Person
	<p>The occupational therapy program at the university of Manitoba is in transition. Our current entry-level professional program is the Bachelor of Medical Rehabilitation(Occupational Therapy) BMR(OT) program. In fall of 2003 we are starting our new program which is an entry-level master's degree Master of Occupational Therapy (MOT)</p> <p>In the BMR(OT) program ICF was primarily taught in a course titled Principles of Occupational Therapy which contained a section on health and disability.</p> <p>In the MOT program there is a course titled Health and Disability which will include information about the ICF and its uses.</p> <p>In both programs other courses may include integration of the concepts in the ICF but the ones listed above are the primary courses where the classification model is taught.</p> <p>Ann Booth has taught the Principles of Occupational Therapy course and is one of the planners for the Health and Disability course in the new program</p>	<p>Emily Etcheverry PhD, OT(C) Associate Professor and Head Occupational Therapy School of Medical Rehabilitation 770 Bannatyne Ave Winnipeg, MB R3C 0W3 (204) 789-3418 Fax: (204) 789-3927 [mailto:eetchev@Ms.UManitoba.CA]</p>
