To Whom It May Concern:

I am writing in support of the proposed rule on respiratory protective devices published in the Federal Register on May 24, 1994 (42CFR Part 84 Fed Register Vol 59, No 99, pp. 26850-26893). I believe that the proposed three levels of minimum efficiency performance standards describing filter elements as Type A filters (99.97%), Type B filters (99%) and Type C filters (95%) will enable us to safely utilize a wider variety of respirators.

I appreciate the opportunity to respond to the proposal.

Sincerely,

Ellen Dorshow-Gordon
