Comments

We at the sharon fire dept. are a small city in Northwest TN. It took us using are old 25 year old plus SCBA's before we got a grant and got some new ones. We have had them now around 5 years and now we found out that after 10 years we have to replace the bottles and no one told us this news when we was buying them. After checking on the replacement prices they are around 900 to 1,000 a Bottle what a dam job. We at Sharon fire dept. have arpound 16 bottles and there is no way we can pay that for a bottle with are budget. The bad thing is the bottles look brand new. We and others need a way to buy the bottles at a cheaper price.
