To: NIOSH Docket Office (CDC)
Subject: 226 - Implementation of the James Zadroga 9/11 Health and Compensation Act of 2010 (Pub. L 111-347)

I would like other illnesses to be added to Zadroga bill. Respiratory problems, especially those that can't be explained. I have been ill for quite sometime. I have been on steroids and antibiotics for the last few years, every other month at least. I am getting different symptoms now. No one knows why or how to treat me. I think more should be done to research unexplained illnesses so we can recover and live longer lives.
