

NIOSH Docket 140 (General Steel Industries AWE site)
Paul Ziemer, Chair (TBD-6000 work group of the ABRWH)
Ted Katz, ABRWH DFO

March 11, 2012

Dear NIOSH Docket office, Dr. Ziemer and Ted Katz,

Attachment: <MCKEEL_ADDENDA_1+2.pdf> PDF 4.7MB

Enclosed are two addenda (numbers 1 and 2) contained in a single PDF file to the comments I submitted and were posted to Docket 140 on March 28, 2012. I ask that the attached file would please be posted to Docket 140. I also request that Ted Katz, in addition, please distribute this Addendum document to members of the TBD-6000 work group, to DCAS Director Stuart Hinnefeld, Dr. James Neton, and David Allen at DCAS/NIOSH, and to Dr. John Mauro and Dr. Bob Anigstein of SC&A. My petitioner's presentation at the March 15, 2012, TBD-6000 meeting at the Cincinnati Marriott will cover both the 2/28/12 primary comment and the two 3/11/12 Addenda to the Allen October 2011 and January 2012 GSI white papers in the broader context of Mr. Allen's October 2010 proposed Path Forward for GSI document.

Thank you,
-- Dan McKeel
