<sup>1</sup>Asian race category reporting includes Pacific Islander from 1993–2002.

<sup>2</sup>Native Hawaiian/Other Pacific Islander race first reported separately in 2003.

<sup>3</sup>Indicates two or more races reported for a person. Category first reported in 2003 and does not include persons of Hispanic/Latino origin.

<sup>4</sup>Persons of Hispanic ethnicity may be of any or multiple race.

<sup>5</sup>The higher count for unknown or missing race results for 1993–2001 reflect the impact of the transitional period of incorporating new race definitions for Asian, Native Hawaiian, and multiple race in 2003.

**Note:** Case counts for race categories (American Indian/Alaska Native, Asian, black/African American, Native Hawaiian/Other Pacific Islander, and white) do not include persons of Hispanic/Latino origin or multiple race. Non-U.S.–born persons include those born outside the United States (including the U.S. territories), except persons born to at least one U.S. citizen parent. Data for all years updated through June 21, 2017.
