# 1. PREFACE

Included in the 2014 version of this manual are detailed instructions and code lists for coding all geographic variables captured on the 2003 revisions of the U.S. Standard Certificates of Live Birth and Death, and the U.S. Standard Report of Fetal Death. Only one version of the 2014 manual is being provided, since all jurisdictions are required to be using the 2003 U.S. Standard for all certificate and report types by the time this manual takes effect on January 1, 2014.

Between 2002 and 2008, the National Institute of Standards and Technology (NIST) withdrew the Federal Information Processing Standards (FIPS) geographic code standards used in the previous version of this manual, including those for U.S. states (FIPS 5-2), counties (FIPS 6-4), and places (FIPS 55-3). The U.S. Census Bureau led an effort to have the old state and county FIPS codes certified as an American National Standards Institute (ANSI) standard and those codes continue to be used in this coding manual. The 5-digit place codes were not adopted as an ANSI standard, but previously issued FIPS place codes, renamed "Census Codes," continue to be used and maintained by the U.S. Census Bureau and will continue to be used in this coding manual.

## **2. CODING GEOGRAPHIC ENTITIES**

### **A. OVERVIEW**

For the 2014 version of this manual, NCHS has introduced several changes intended to simplify coding and improve data quality.

This manual now only includes place codes for incorporated places (and minor civil divisions in certain jurisdictions) with a 2010 Census population of at least 10,000. The requirement to report Census Designated Places (CDP) and other unincorporated areas has been eliminated. CDPs and most other unincorporated areas do not have well-defined boundaries and the data quality was not high enough to warrant their continued inclusion. Jurisdictions may still code for smaller places or for unincorporated places, including CDPs, but NCHS will no longer validate the code. All valid place codes not included in this manual (e.g. codes for unincorporated places and incorporated places with a population less than 10,000) will be converted by NCHS to a preferred place code for quality control, analysis and publication. Invalid place codes will be converted to “Balance of County” for all purposes.

The City Limit Indicator (CLI) continues to be a required variable on the 2003 U.S. Standard Certificates, but NCHS will no longer require jurisdictions to consider the CLI as part of the rules for coding place of residence. Jurisdictions should now simply code the place that is reported on the certificate. NCHS will continue to use the CLI to recode records for analysis and publication. In addition, NCHS will use the recoded place value for preliminary quality control analyses. Jurisdictions that do not collect the CLI on their certificates should report the item as a ‘U’.

In some instances, multiple places in a state may have the same or similar name. This manual is organized by county to help the coder select the correct place. When the two places are in the same county this manual now includes legal area descriptors, such as “Town” or “City” to help distinguish between places.

## **B. CODING RULES**

### **OCCURRENCE**

*For use in Natality, Mortality, and Fetal Death files.*

#### **State (Jurisdiction) of Occurrence**

Report the two-letter state code from Section 3B of the Registration Area that is submitting the record. Jurisdictions may not report any value other than their own for this item. If the birth occurred in New York City, a code of 'YC' should be reported.

#### **County of Occurrence**

Report the three-digit county code from Section 3C for the Registration Area that is submitting the record. If the County is Unknown, report '999'.

### **BIRTHPLACE**

*For use in Natality, Mortality, and Fetal Death files (Birthplace of Mother on the Natality and Fetal Death files and Birthplace of Decedent on the Mortality file).*

#### **Country of Birth**

Report the two-letter code from Section 3A. If the Country is Unknown, report 'ZZ'.

#### **State of Birth**

<i>If the country code is...</i>	<i>then report...</i>
<b>US (United States)</b>	two-letter state or territory code from Section 3B or 'ZZ' if unknown
<b>CA (Canada)</b>	two-letter province code from Section 3B or 'XX' if unknown
<b>ZZ (unknown)</b>	'ZZ'
<b>Any other country code</b>	'XX'

## **RESIDENCE**

*For use in Natality, Mortality and Fetal Death files.*

### **Country of Residence**

Report the two-letter code of any country without an asterisk from Section 3A (codes with asterisks are valid for Birthplace only). If the Country is Unknown, report 'ZZ'.

### **State of Residence**

<i>If the country code is...</i>	<i>then report...</i>
<b>US (United States)</b>	two-letter state or territory code from Section 3B or 'ZZ' if unknown
<b>CA (Canada)</b>	two-letter province code from Section 3B or 'XX' if unknown
<b>ZZ (unknown)</b>	'ZZ'
<b>Any other country code</b>	'XX'

### **County of Residence**

<i>If the country code is...</i>	<i>then report...</i>
<b>US (United States)</b>	three-digit code from the reported State/Territory of Residence list in Section 3C, or '999' if Unknown
<b>ZZ (unknown)</b>	'999'
<b>Any other country code</b>	'000'

### **Place of Residence**

<i>If the country code is...</i>	<i>then report...</i>
<b>US (United States)</b>	five-digit code from the reported State of Residence list in Section 3C, or '00000' if the place is not found in the list
<b>ZZ (unknown)</b>	'99999'
<b>Any other country code</b>	'00000'

*NOTE: In some states there may be multiple places with the same name within the same county. If unable to distinguish between these places based on the legal area descriptors (e.g. "Town" or "City"), then code to the place identified as "City" or "Borough," as these will typically have a larger population.*

**LINKED FILE STATE OF BIRTH**

*For use in Mortality files*

This item is generally not coded from the certificate, but is appended to records at a later time.

Report the two-letter code from Section 3B for the state or territory where the infant decedent was born. If the birth occurred in New York City, a code of 'YC' should be reported, instead of 'NY'.

Births occurring in another country (including Canada) should be coded to 'XX'.

If the location of the birth is unknown, a code of 'ZZ' should be reported.

## 3. CODE LISTS

### A. COUNTRIES

Codes marked with an “\*” indicate historic political entities that no longer exist. When active and historic political entities have the same or similar name, dates have been provided to help select the most appropriate code. A few codes appear more than once in the list alphabetized under commonly use variants of the official name.

**NOTE: Codes are not available for countries that ceased to exist prior to June 15, 1970.** To code an event for a country for which a code is not available, use the code for the closest contemporary country (i.e. a code without an “\*”).

## 4. CODE FILES

### A. DESCRIPTION

Country, county and place code lists are also being provided as machine readable comma separated text files. When opening these files the code files should be read in as text rather than numbers to ensure the leading zeros are retained. The place codes file is an expanded version of the place codes list found in this manual with smaller places and alternative place names mapped to one of the preferred place codes included in the Place code list in Section 3C.

### B. FILE LAYOUTS

#### COUNTRY CODES

File Name: COUNTRY\_CODES.TXT

Item	Description
<b>COUNTRY_NAME</b>	Name of country (see Section 3A)
<b>COUNTRY_CODE</b>	Two-letter country code (see Section 3A)
<b>HISTORIC_FLAG</b>	An "*" indicates the code is for an inactive historic political entity and is not valid for coding Country of Residence
<b>CODE_DATE</b>	Date political entity was active (only available for select historic political entities)

#### COUNTY CODES

File Name: COUNTY\_CODES.TXT

Item	Description
<b>STATE_CODE</b>	Two-letter state or territory code (see Section 3B)
<b>COUNTY_NAME</b>	Name of county or county equivalent (see Section 3C)
<b>COUNTY_CODE</b>	Three-digit county code (see Section 3C)

**PLACE CODES**

File Name: PLACE\_CODES.TXT

<b>Item</b>	<b>Description</b>
<b>STATE_CODE</b>	Two-letter state or territory code (see Section 3B)
<b>COUNTY_NAME</b>	Name of county or county equivalent
<b>COUNTY_CODE</b>	Three-digit county code (see Section 3C)
<b>PLACE_NAME</b>	Name of Place
<b>PLACE_TYPE</b>	Legal area descriptors (City, Municipality, Town, Township, Village, etc.)
<b>PLACE_CODE</b>	Five-digit place code (see Section 3C)
