Some of the content of the questions in the survey are sensitive in nature. This research is covered by a Certificate of Confidentiality from the National Institutes of Health. The Certificate of Confidentiality protects your privacy by prohibiting disclosure of identifiable, sensitive research information to anyone not connected to the research. This means that the researchers cannot release or use information that may identify you in any action or suit unless you say it is okay. An example would be a court subpoena.

The Certificate does not stop reporting what federal, state or local laws require. Some examples are laws that require reporting of child or elder abuse and threats to harm yourself or others. CIPSEA, explained on the next screen, does protect from this reporting and covers this research. Neither protect from any physical harm to yourself or others that may result from this survey. If at any point you do not feel safe while completing the survey, you can stop the survey and complete it at a later time that is better. There will also be resources available throughout the survey should you feel you need talk with anyone.

The National Center for Health Statistics, part of the Centers for Disease Control and Prevention, is conducting a study and we need your help. We are interested in your health and wellness, and will be asking you a series of questions about your health history, behaviors, and opinions. This should take about 20 minutes or less to complete. Participation in this survey is completely voluntary, and you may skip any question(s) you do not want to answer and may quit the survey at any time. You will not receive any monetary reward or incentive from the government for participating in this survey. The information being collected is for research purposes only, and will assist NCHS and CDC in their ongoing efforts to track the health of the American public. Your data will be held confidential, will be used for statistical purposes only, and will not be disclosed or released to other persons without your consent in accordance with Section 308(d) of the Public Health Service Act [42 U.S.C. 242m(d)] and the Confidential Information and Statistical Efficiency Act (Title III of the Foundations for Evidence-Based Policymaking Act of 2018, Pub. L. No. 115-435, 132 Stat. 5529, § 302).
