Program Collaboration & Service Integration: Actions and Plans

Gustavo Aquino, MPH

Associate Director for Program Integration

National Center for HIV/AIDS, Viral Hepatitis, STD and TB Prevention
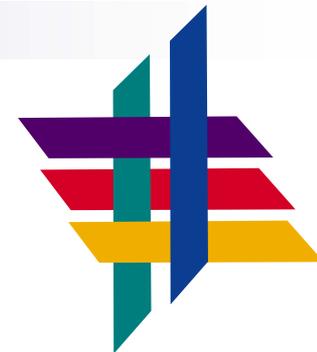

Presentation Overview

- NCHHSTP and PCSI overview
- Accomplishments and plans
- Our Common Goal
- Working to accelerate PCSI

Program Collaboration and Service Integration (PCSI)

Goal:

Provide prevention services that are holistic, evidence-based, comprehensive, and high quality to appropriate populations at every interaction with the health care system.

Program Collaboration and Service Integration (PCSI)
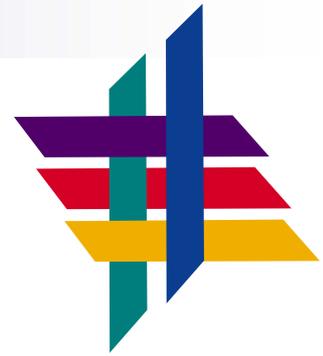

Vision:

Remove barriers to and facilitate adoption of service delivery integration at the client level by aligning NCHHSTP activities, systems, and policies with this goal.

Program Collaboration and Service Integration (PCSI)

PROGRAM COLLABORATION

Definition: Collaboration describes a mutually beneficial and well-defined relationship entered into by two or more organizations or organizational units to achieve common goals. The collaborative relationship usually includes a commitment to mutual relationships and goals; a jointly developed structure and shared responsibility; mutual authority and accountability for success; and sharing of resources and rewards .

Program Collaboration and Service Integration (PCSI)

SERVICE INTEGRATION

Definition: Service integration is a distinct method of service delivery, characterized by features such as common intake and 'seamless' service delivery, where the client may receive a range of prevention and other services from different disease areas or programs without repeated registration procedures, waiting periods, or other administrative barriers.

Program Collaboration and Service Integration (PCSI)

PCSI is NOT:

- ☐ An attempt to re-organize or merge NCHHSTP programs
- ☐ A call to local programs to re-organize structurally
- ☐ A stand-alone funded program or change to block grants
- ☐ An un-funded mandate
- ☐ A charge to merge categorical funds
- ☐ An Office or Branch that provides and monitors program funds
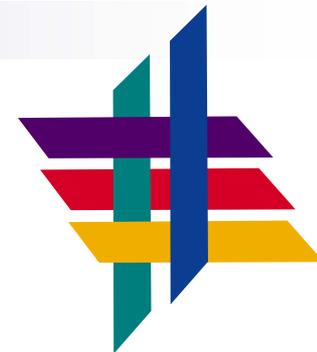

# Program Collaboration and Service Integration (PCSI)

PCSI <u>is</u>:

- ☐ A Strategic Program Imperative at NCHHSTP

- ☐ An attempt by CDC to remove barriers and get out of the way

- ☐ A gradual alignment of systems (surv, lab, training)

- ☐ Influencing and improving business practices

- ☐ A change in NCHHSTP work culture

Work Structures
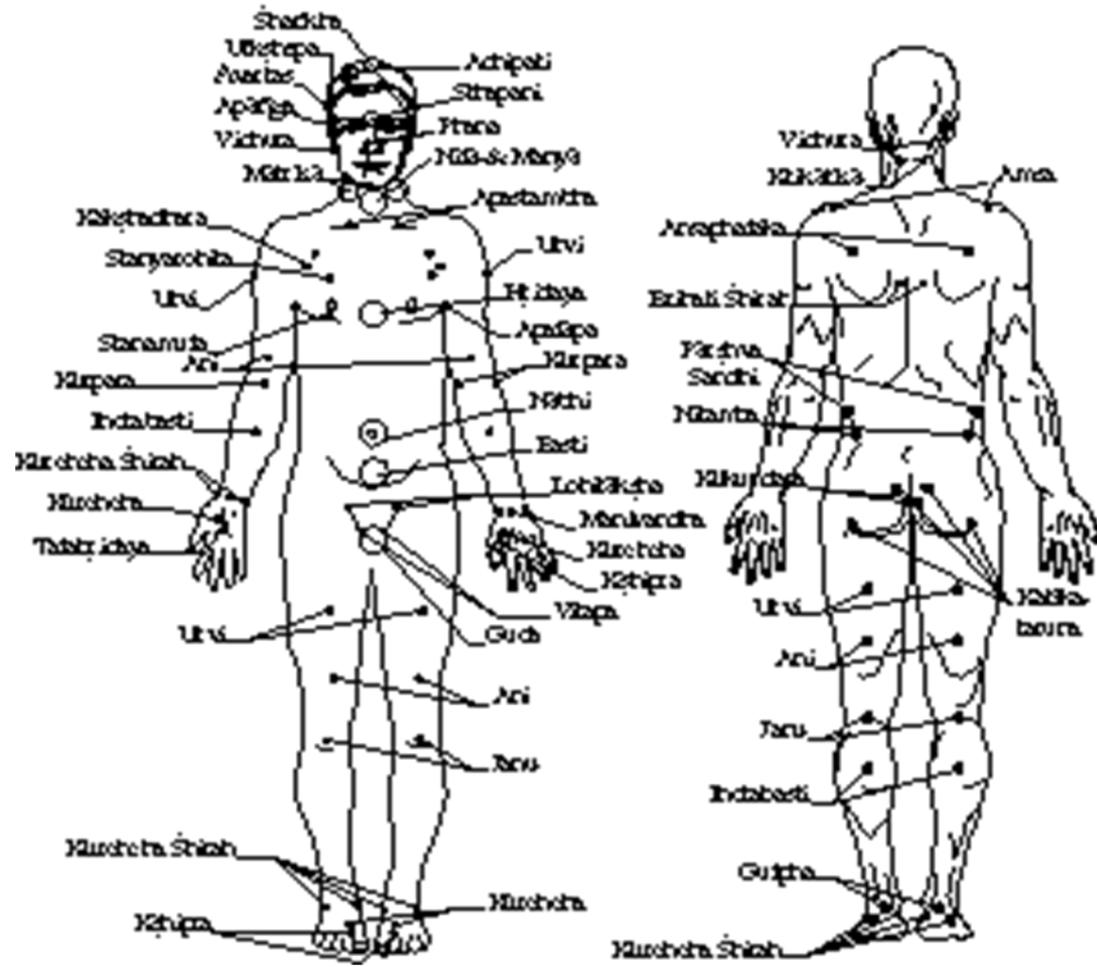

Funding and Program Announcements
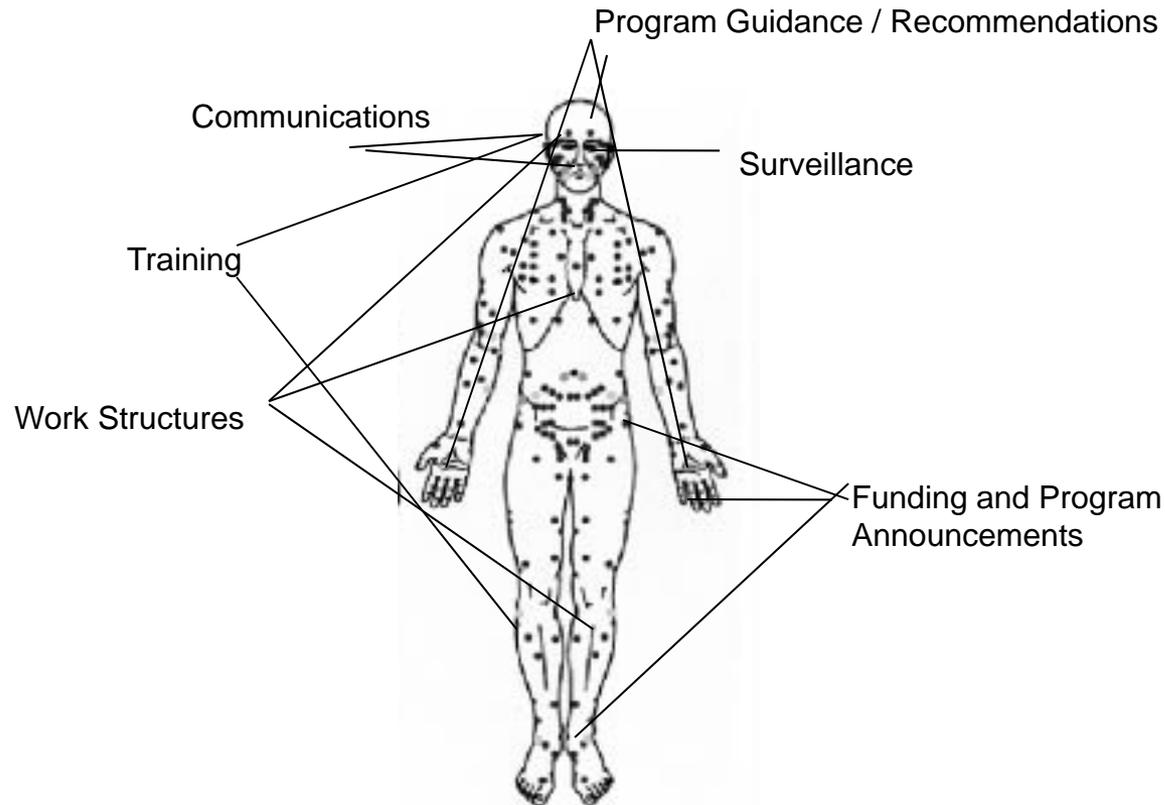

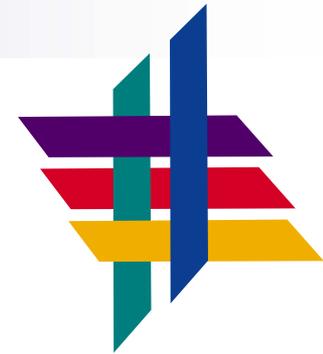

Accomplishments and Plans
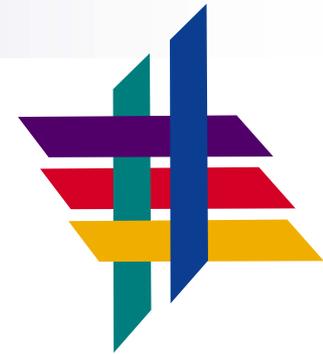

FUNDING and PROGRAM ANNOUNCEMENTS

- ☐ Standard operating procedures for FOA development
- ☐ Inventory FOA opportunities
- ☐ Incorporating PCSI language into funding announcements to allow greater flexibility (5/11 FOAs)
- ☐ Expanded HIV Testing Initiative
- ☐ Section 317 Immunization Funds for adult hepatitis B vaccine

Accomplishments and Plans

INTEGRATED SURVEILLANCE

- Surveillance Workgroup

- Integrated Report

- Plans to complete NCHHSTP Common Confidentiality Standards for data sharing

2006 DISEASE PROFILE
National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Department of Health and Human Services
Centers for Disease Control and Prevention
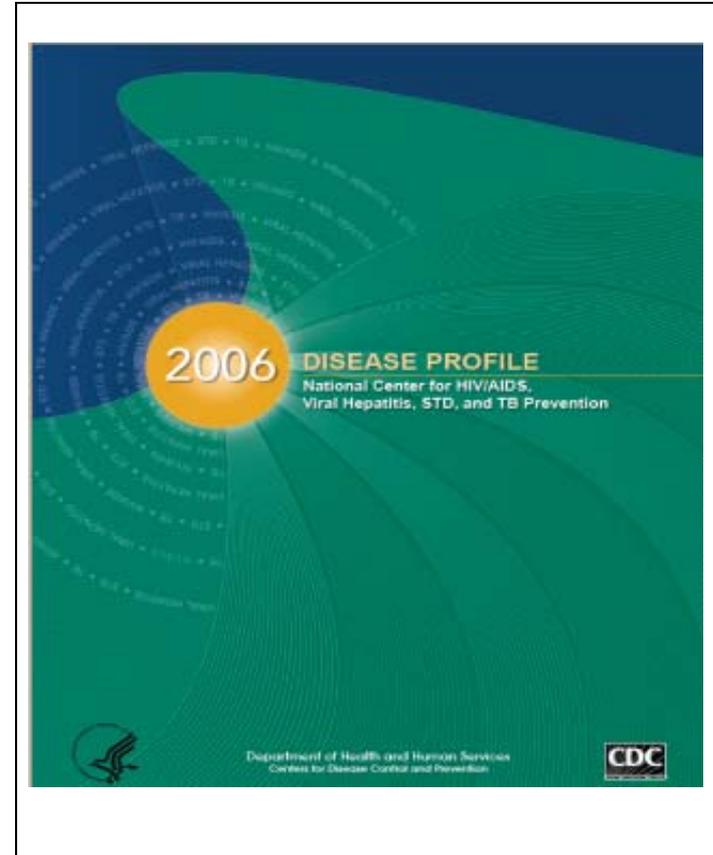

Accomplishments and Plans

TRAINING

- Held meeting of funded training partners, June 24
- Developed meeting report
- Identified priority next steps
  - Plans to complete a review of existing curricula for integration opportunities
  - In the process of reviewing internal training for Project Officers and Program Consultants
- Piloting trainings of STD Program Managers

Centers for Disease Control and Prevention
National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention

Program Collaboration & Service Integration in CDC-Sponsored Training Courses

Long Beach, CA
June 24, 2008
Meeting Report

Accomplishments and Plans

PROGRAM GUIDELINES/ RECOMMENDATIONS

Accomplishments and Plans

PROGRAM GUIDELINES/ RECOMMENDATIONS

CDC

MMWR

CAUTION!!! UNDER CONSTRUCTION!

Our Common Goal

•Funding and Program Announcements

•Integrated Surveillance

•Program Guidance/ Recommendations

•Training

•Communication

•Work structure

=

•Decrease missed opportunities to identify and treat disease

•Increase access to services for clients

•Improved behavioral and health outcomes

Working to accelerate PCSI
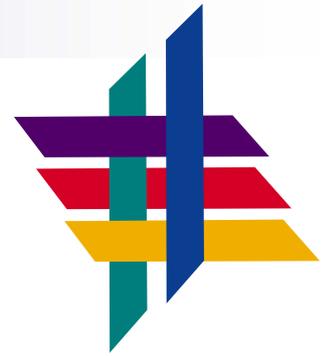

- Are CDC's efforts translating locally?

- What are some areas where we can join efforts for 2009-2010?

- How do we enhance our network and communication?
