

Contact Investigation Role Plays

1

Role Plays (1)

The purpose of the role play is to

- Gain practice interviewing a case
- Receive performance feedback from facilitators and other participants

2

Role Plays (2)

- There are 3 roles that are played within each role play; TB case, interviewer, and observer
- During the exercise, each participant will have the opportunity to play each of the roles

TB Case
who is being interviewed

Health Care Worker
who interviews the case

Observer
who observes the role play and provides verbal and written feedback to the health care worker
