## Appendix A: Language for Identifying Most Knowledgeable Person during the BRFSS interview

**Consent scripts for use during BRFSS 2011 Child asthma module when the most knowledgeable adult is identified during the BRFSS interview.**

### **Child asthma module:**

If BRFSS respondent indicates that the randomly selected child has ever had asthma (CASTHDX2 = 1 “yes”) and the BRFSS adult never had asthma then arrange for a call-back interview. If both the BRFSS adult and the randomly selected child both have asthma the child is randomly selected for the call-back 50% of the time.

Only respondents who are the parent/guardian of the selected child with asthma are eligible for the child asthma call-back interview. This is required because the parent/guardian must give permission to collect information about the child even if the information is being given by someone else. (RCSRELN1 = 1, 3 )
