

# Lessons Learned: Los Angeles Rapid HIV Test Study

Peter R. Kerndt, MD, MPH  
Los Angeles County STD Program

Bernard Branson, MD  
Centers for Disease Control & Prevention

Apurva Uniyal  
Health Research Association

September 10, 2002

# Rapid Testing in Los Angeles

- **Study Overview**
- **Site Logistics**
- **Lessons Learned**

# GAY & LESBIAN CENTER

# STD CLINIC

# Lessons Learned

- **Client Acceptance Levels**
- **Testing & Counseling**  
**Unit Logistics**
- **Personnel Issues**

# Future Considerations & Discussion Points

- **Maintain communication with regulating agencies and manufacturers**
  - Ensures consistent service
  - Reflects on quality of service provided at facilities and facilitates client relations

# Moderately Complex testing in CA

- Requires a clinical laboratory scientist
- Additional requirements in public clinic
- Phlebotomy duties for licensed staff
- Current recruitment obstacles

# Future Considerations & Discussion Points

- How will the implementation of CLIA-waived tests affect our existing T&C settings?
  - Who will do what
  - Setting changes (office, mobile units, etc.)
