Total	70,325	67,121	58,838	47,855	41,323	39,721	39,412

Note. These numbers do not represent actual cases in persons with an AIDS diagnosis. Rather, these numbers are point estimates of diagnoses in adolescents and adults, adjusted for reporting delays, but not for incomplete reporting. Totals were calculated independently; values may not sum to totals due to rounding.
