

Course Detail

U S. SELECTED PRACTICE RECOMMENDATIONS FOR CONTRACEPTIVE USE, 2013: ADAPTED FROM THE WORLD HEALTH ORGANIZATION SELECTED PRACTICE RECOMMENDATIONS FOR CONTRACEPTIVE USE

Course Number: **WB2272**

CE Origination Date: **June 21, 2013**

CE Expiration Date: **June 21, 2015**

Goal

The goal of this report is to provide evidence-based recommendations for common, yet sometimes controversial or complex, management issues around the initiation and use of specific contraceptive methods in the United States. This report will help assist family planning providers when counseling women, men and couples about contraceptive method use and will serve as a source of clinical guidance.

Objectives

1. Describe the purpose of the U.S. Selected Practice Recommendations for Contraceptive Use (US SPR)
2. Describe how to be reasonably certain a woman is not pregnant prior to initiating contraception
3. Describe what examinations and tests are essential and mandatory for safe initiation of contraceptive methods
4. Describe options for management of bleeding irregularities while using contraceptive methods
5. Describe recommended steps to take if a woman misses a dose of her oral contraceptive pill

Intended Audience

Physicians, Registered Nurses, Administrators, Infection control practitioners, employee health clinicians, health-care personnel

Content Experts/Prepares

Kathryn M. Curtis, PhD, Medical Officer, Division of Reproductive Health, National Center for Chronic Disease Prevention and Health Promotion, CDC

Naomi Katz Tepper, MD, MPH, FACOG, Medical Officer, Division of Reproductive Health, National Center for Chronic Disease Prevention and Health Promotion, CDC
