# Program Collaboration and Service Integration
## Roles and responsibilities

- ## CDC's responsibilities
  - Support greater coordination and communication among programs
  - Encourage more joint site visits
  - Provide national guidance and recommendations on standards for PCSI and performance indicators
  - Conduct periodic assessments of coverage and quality of integrated services
  - Collate national monitoring and evaluation data on PCSI implementation from grantees
  - Support training, policy, and guideline development
  - In consultation with partners, explore funding opportunities
