* Estimate does not meet standard of reliability or precision because the sample size is less than 30. Estimates accompanied by an asterisk (*) indicate that the sample size is between 30 and 59, or the sample size is greater than 59, but has a relative standard error of 30 percent or more.

¹Includes multiple counts for residents with more than one source of payment.

²Includes private health insurance, lifecare program, private pay, and out of pocket forms of payment.

³Includes other sources, welfare or government assistance, and Department of Veteran Affairs.

⁴Age at time of interview.

⁵Other race includes Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native and multiple races. Persons of Hispanic origin may be of any race. Starting with data year 1999, race-specific estimates have been tabulated according to the 1997 Standards for Federal Data on Race and Ethnicity and are not strictly comparable with estimates for earlier years. However, only a small number of records had multiple races.

⁶Includes residents who were living with a partner.

⁷Includes psychiatric, mentally retarded, developmentally disabled, and rehabilitation facilities.

⁸Includes only residents living in a private or semiprivate residence before admission.

NOTE: Numbers may not add to totals because of rounding.

* Estimate does not meet standard of reliability or precision because the sample size is less than 30. Estimates accompanied by an asterisk (*) indicate that the sample size is between 30 and 59, or the sample size is greater than 59, but has a relative standard error of 30 percent or more.

¹Excludes unknown.

²Age at time of interview.

³Other race includes Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native and multiple races. Persons of Hispanic origin may be of any race. Starting with data year 1999, race-specific estimates have been tabulated according to the 1997 Standards for Federal Data on Race and Ethnicity and are not strictly comparable with estimates for earlier years. However, only a small number of records had multiple races.

⁴Includes residents who were living with a partner.

⁵Includes psychiatric, mentally retarded (MR), developmentally disabled (DD), and rehabilitation facilities.

⁶Includes only residents living in a private or semiprivate residence before admission.

NOTES: Numbers may not add to totals because of rounding. Percents are based on the unrounded numbers.

Table 13. Number and percent distribution of nursing home residents by length of time since admission (in days) and mean and median length of time according to selected facility characteristics: United States, 2004

Characteristic	Length of time since admission (in days)									Mean length of time since admission in days	Median length of time since admission in days
	All residents	Total ¹	Less than 3 months	3 months to less than 6	6 months to less than 12	1 year to less than 3	3 years to less than 5	5 years or more
