

Table 1-23. Birth Rates by Age of Father and Race: United States, 1940, 1950, and 1960-95

(Rates are live births per 1,000 men in specified group. Populations estimated as of April 1 for census years and July 1 for all other years. Figures for age of father not stated are distributed. Beginning in 1970, excludes births to nonresidents of the United States; see Technical Appendix. The rates in this table for 1991-95 are based on postcensal population estimates consistent with the 1990 census. Rates for these years have recently been revised using more accurate population estimates based on the results of the 2000 census, and are available at: <http://www.cdc.gov/nchs/data/nvsr/nvsr51/nvsr51_12.pdf> . The 1990 based estimates are used in this report for consistency with reports in the series that have already been published and will not be reissued)

Table 1-23. Birth Rates by Age of Father and Race: United States, 1940, 1950, and 1960-95

(Rates are live births per 1,000 men in specified group. Populations estimated as of April 1 for census years and July 1 for all other years. Figures for age of father not stated are distributed. Beginning in 1970, excludes births to nonresidents of the United States; see Technical Appendix. The rates in this table for 1991-95 are based on postcensal population estimates consistent with the 1990 census. Rates for these years have recently been revised using more accurate population estimates based on the results of the 2000 census, and are available at: <http://www.cdc.gov/nchs/data/nvsr/nvsr51/nvsr51_12.pdf> . The 1990 based estimates are used in this report for consistency with reports in the series that have already been published and will not be reissued)

--- Data not available.

(1) Rates computed by relating total births, regardless of age of father, to men aged 15-54 years.

(2) Rates computed by relating births to fathers under 20 years of age to men aged 15-19 years.

(3) Based on 100 percent of births in selected States and on a 50-percent sample of births in all other States; see Technical Appendix.

(4) Based on a 50-percent sample of births.

(5) For method of adjustment, see Technical Appendix.

(6) Figures exclude data for residents of New Jersey; see Technical Appendix.

NOTE: Race and Hispanic origin are reported separately on birth certificates. In this table all men (including Hispanic men) are classified only according to their race; see Technical notes.
