

Society for Academic Emergency Medicine

901 N. Washington Ave. • Lansing, MI 48906 • (517) 485-5484 • FAX (517) 485-0801

September 12, 2001

Dear Emergency Department Director:

We urge you to support the National Hospital Ambulatory Medical Care Survey, which is an ongoing project sponsored by the Centers for Disease Control to gather data about outpatient and emergency department visits.

The mission of the Society for Academic Emergency Medicine is to improve patient care by advancing research and education in emergency medicine. The information collected in the surveys is valuable for emergency care providers, researchers, educators, and administrators to address issues facing emergency medicine. On behalf of the more than 5,000 members SAEM represents, the Board of Directors urges you to complete the survey.

Sincerely,

Marcus Martin, MD
President

Board of Directors
