Mr. Nelson Fiedel
NIOSH Docket Officer
Mail Stop D-37
1600 Clifton Rd., N.E.
Atlanta, Georgia 30333

Dear Mr. Kiedel:

I respectfully request a 15 minute comment period to cover several areas of the NIOSH proposed change 42 CFR 84 at the January 27-28 hearing in Washington D.C. Among the areas about which I wish to comment is the proposed field testing.

Filcon Corporation is a development stage company engaged in designing and manufacturing new types of industrial respirators. Implementation of 42 CFR 84 would have a material effect on our operations and financial position. As chief executive officer, I have primary responsibility for commenting on this proposal.

Sincerely,

Trenton Niemeyer
Chief Executive Officer
