WORKPLACE SAFETY AND HEALTH

Overview of Workshop

- Purpose: to gather diverse stakeholder input on research needs in the area of direct reading methods for assessing occupational exposures.
- Day 1
 - General Session: state-of-the-art presentations addressing issues in direct reading exposure assessment methods that are relevant to a broad range of employment sectors and occupational hazards, including regulatory framework, validation, and approach to collecting and using data.
 - Concurrent Breakout Sessions: organized by hazard, including: gases / vapors; aerosols; ergonomics / vibration; noise; radiation; and surface sampling / biomonitoring.
- Day 2
 - Summary Session: Reports from each breakout session on the specific research needs for each type of occupational hazard.
