:15/:30/:60

15: If you are the parent of an 11 or 12 year old, you need to know about pre-teen vaccines -- vaccines that can help protect your pre-teen from flu, meningitis, whooping cough, and for girls, the virus that causes cervical cancer. So schedule a checkup for your child today. For more information call 800-CDC INFO. Brought to you by DHHS and the CDC.

:30 The pre-teen years are a challenging time, but they're also a good time to think about your child's health. Which is why if you are the parent of an 11 or 12 year old, you need to know about pre-teen vaccines -- vaccines that can help protect your pre-teen from flu, meningitis, whooping cough, and for girls, the virus that causes cervical cancer. So schedule a check up for your child today and ask about pre-teen vaccines, because your pre-teen might think that they're grown up, but they're counting on you to know better. For more information call 800-CDC INFO. Brought to you by DHHS and the CDC.

:60 The pre-teen years are a challenging time, but they're also a good time to think about your child's health. Which is why if you are the parent of an 11 or 12 year old, you need to know about pre-teen vaccines -- vaccines that can help protect your pre-teen from serious diseases, like seasonal and 2009 H1N1 flu, meningitis, whooping cough, and for girls, the virus that causes cervical cancer. So schedule a check up for your child today and ask specifically about pre-teen vaccines, because your pre-teen might think that they're all grown up, but they're counting on you to know better. For more information call 800-CDC INFO, that's 800-232-4636, or visit our website at <http://www.CDC.Gov/Vaccines>. Brought to you by the U.S. Department of Health and Human Services and the Centers for Disease Control and Prevention.
