

Other Online Resources

There are many good online immunization resources. Here are a few of our favorites:

Immunization Action Coalition (IAC)

www.immunize.org

Find hundreds of free downloadable materials for both providers and patients and loads of other useful information. You can subscribe to their three publications (*Needle Tips*, *Vaccinate Adults*, and *Vaccinate Women*) at www.immunize.org/subscribe.

California Department of Public Health EZIZ Materials

http://www.eziz.org/resources/materials_home.html

Their specialty is Administration and Storage & Handling materials.

Children's Hospital of Philadelphia Vaccine Education Center

<http://www.chop.edu/service/vaccine-education-center/home.html>

Download print materials for parents, including information on current safety topics. Also find a separate information page describing each vaccine.

Alliance for Immunization in Michigan (AIM) Toolkit

<http://www.aimtoolkit.org>

Among other features, their "Quick Look Handouts" are useful job aids for immunization providers.

Vaccinate Your Baby

<http://www.vaccinateyourbaby.org/>

Includes videos, news, links to other credible sites, even a smartphone app for reminding parents to schedule vaccine visits.
