

WORLD MALARIA DAY

APRIL 25

Time to Deliver Zero Malaria: Invest, Innovate, Implement

GLOBAL MALARIA

4.3B PEOPLE
Nearly half of all people in the world are at risk of getting malaria

Approximately 76%
of all malaria deaths are in children under 5 years old

IN 2022 WORLDWIDE

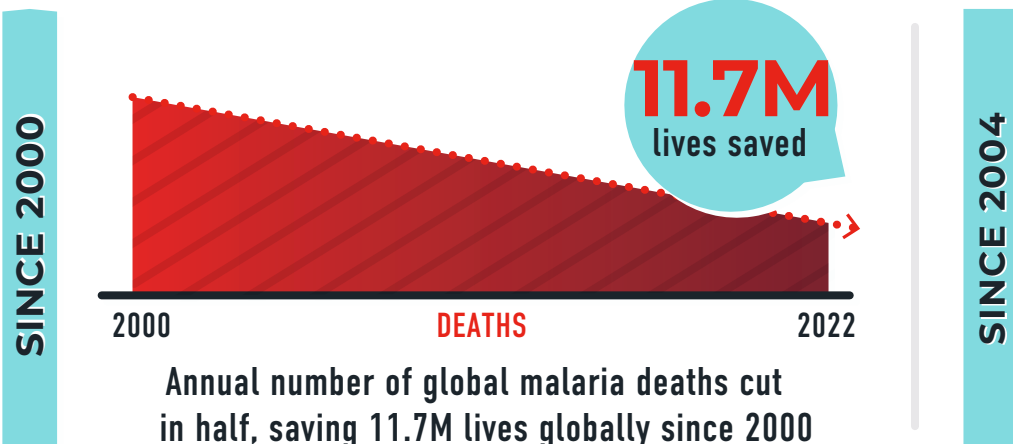

249M
Malaria Cases

608K
Malaria Deaths

PROGRESS

NEARLY 3B

Insecticide-treated nets (ITNs) supplied globally from 2004 - 2022

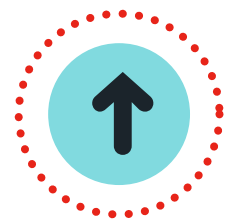

CDC'S IMPACT

Provides scientific leadership and technical assistance to guide countries and partners

Improves data quality and accessibility for use in decision-making

Scales up interventions through the U.S. President's Malaria Initiative (PMI)

Conducts innovative research to improve malaria testing, treatment, and vaccines, and improves tools that help control mosquitoes

Helps prevent, treat, and track malaria in the United States
