

Table XLI. Standard errors for certified nursing assistants currently working in nursing homes with children requiring child care, by age, marital status, and whether missed work in past month for child care: United States, 2004–2005

Nursing assistant characteristic	Nursing assistants working in nursing homes ¹	Have children requiring child care	
	Number	Percent	
Total	14,271	8,734	1.2
Age			
Under 25 years.	6,770	3,158	2.4
25–34 years.	7,402	5,213	2.4
35 years and over	12,849	6,463	1.4
Marital status			
Married ²	12,145	6,126	1.6
Widowed, divorced, or separated.	7,884	3,390	2.1
Never married	8,147	4,720	2.2
Missed work in past month for child care			
Total ³	8,734	...
Yes	4,360	2.1
No.	8,098	2.1

... Category not applicable.

¹Standard errors exclude nursing assistants who terminated employment between the time of the 2004 National Nursing Home Survey and the 2004–2005 National Nursing Assistant Survey (NNAS). Standard errors are for only those certified nursing assistants still employed by the same nursing home at the time of the 2004–2005 NNAS.

²Includes nursing assistants who were living with a partner.

³Includes nursing assistants who have children requiring child care.

Table XLII. Standard errors for certified nursing assistants currently working in nursing homes who provide care to a family member or friend, by age, marital status, and whether missed work in past month for adult care: United States, 2004–2005

Nursing assistant characteristic	Nursing assistants working in nursing homes ¹		Provide care to family member or friend
	Number		Percent
Total	14,271	6,313	0.9
Age			
Under 25 years	6,770	2,140	1.8
25–34 years	7,402	2,592	1.5
35 years and over	12,849	5,616	1.3
Marital status			
Married ²	12,145	4,809	1.3
Widowed, divorced, or separated	7,884	3,267	2.0
Never married	8,147	2,861	1.5
Missed work in past month for adult care			
Total ³	6,313	...
Yes	2,970	2.6
No	5,786	2.6

... Category not applicable.

¹Standard errors exclude nursing assistants who terminated employment between the time of the 2004 National Nursing Home Survey and the 2004–2005 National Nursing Assistant Survey (NNAS). Standard errors are for only those certified nursing assistants still employed by the same nursing home at the time of the 2004–2005 NNAS.

²Includes nursing assistants who were living with a partner.

³Includes nursing assistants who provide care to a family member or friend.

Table XLIII. Standard errors for certified nursing assistants currently working in nursing homes, by whether ever received selected types of public assistance and type of assistance ever received, according to selected nursing assistant characteristics: United States, 2004–2005

Nursing assistant characteristic	Nursing assistants working in nursing homes ^{1,2}	Ever received public assistance ^{3,4}	Type of public assistance								
			Food stamp benefits ⁵		Women, Infants, and Children (WIC) Program ⁶		Temporary Assistance for Needy Families (TANF) ⁷		Disability insurance, SSI ⁸

* When the standard error is not reported, it is because the sample size for the estimate is less than 30 which does not meet the standard of reliability or precision. Standard errors accompanied by an asterisk (*) indicate that the sample size is between 30 and 59, or the ratio of the standard error to the reported estimate is 30 percent or more.

¹Standard errors exclude nursing assistants who terminated employment between the time of the 2004 National Nursing Home Survey and the 2004–2005 National Nursing Assistant Survey (NNAS). Standard errors are for only those certified nursing assistants still employed by the same nursing home at the time of the 2004–2005 NNAS.

²Includes unknowns.

³Includes food stamps benefits, WIC, TANF, and disability insurance SSI.

⁴Does not include housing assistance and government programs that pay for medical care, such as Medicaid. The 2004–2005 NNAS included only questions about whether nursing assistants “currently” receive housing assistance or participate in any government program that pays for medical care, such as Medicaid and not whether they ever received it.

⁵Food stamp benefits is determined by responses to the question, “Have you ever received food stamp benefits?”

⁶WIC is determined by responses to the question, “Have you ever received food vouchers or food items from WIC, which is the Women, Infants, and Children Program?”

⁷TANF is determined by responses to the question, "Have you ever received cash welfare for families and children, which is also known as TANF or Temporary Assistance for Needy Families? TANF used to be called AFDC, or Aid to Families with Dependent Children.

⁸Disability Insurance, Supplemental Security Income (SSI) is determined by responses to the question, "Have you or your child ever received disability insurance such as Supplemental Security Income or SSI?"

⁹Other race includes Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native, and multiple races. Only a small number of records had multiple races.

¹⁰A Certificate of General Educational Development (GED) or similarly titled credential given to persons who passed tests deemed equivalent to high school-level academic skills.

¹¹Excludes nursing assistants who were awarded a GED.

¹²Includes nursing assistants who were living with a partner.

Table XLIV. Standard errors for certified nursing assistants currently working in nursing homes by whether receiving public assistance and types of assistance received, according to selected nursing assistant characteristics: United States, 2004–2005

Characteristic	Type of public assistance

Standard errors are for only those certified nursing assistants still employed by the same nursing home at the time of the 2004–2005 NNAS.

²Includes unknowns.

³Includes food stamp benefits, WIC, housing assistance, government program for medical care, Temporary Assistance for Needy Families (TANF), and disability insurance SSI (Supplemental Security Income).

⁴Estimates for TANF and SSI not shown separately because the numbers were too small to report individually.

⁵Food stamp benefits is determined by responses to the question “Are you currently receiving food stamp benefits?”

⁶WIC is determined by responses to the question “Have you ever received food vouchers or food items from WIC, which is the Women, Infants, and Children Program?”

⁷Housing assistance is determined by responses to the question “Do you currently live in public housing, receive a rent subsidy such as Section Eight, or pay a lower rent because the government pays part of the cost?”

⁸Government program for medical care is determined by responses to the question “Do you participate in any government programs that pay for medical care such as Medicare, Medicaid, or {STATE SPECIFIC MEDICAD NAME}?”

⁹Other race includes Asian, Native Hawaiian or other Pacific Islander, American Indian or Alaska Native, and multiple races. Only a small number of records had multiple races.

¹⁰A Certificate of General Educational Development (GED) or similarly titled credential given to persons who passed tests deemed equivalent to high school-level academic skills.

¹¹Excludes nursing assistants who were awarded a GED.

¹²Includes nursing assistants who were living with a partner.
