

# 2022 Massachusetts Results Report

State Total Score\*

National Total Score\*

## What is mPINC™?

mPINC is CDC's national survey of Maternity Practices in Infant Nutrition and Care.

## What does mPINC measure?

The survey measures care practices and policies that impact newborn feeding, feeding education, staff skills, and discharge support.

## Who is included in mPINC surveys?

CDC invites all hospitals with maternity services in the U.S. and territories to participate. In 2022, 37 of 40 eligible hospitals in Massachusetts participated (93%).

Implementing best practices and policies in maternity care help to improve breastfeeding outcomes. Use your state's mPINC data to bring together partners, identify gaps, celebrate achievements, and prioritize next steps.

Category	National Subscore	Massachusetts Subscore	Massachusetts Hospitals with Ideal Response
<b>Immediate Postpartum Care</b>	<b>84</b>	<b>93</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Newborns remain in uninterrupted skin-to-skin contact for at least 1 hour or until breastfed (vaginal delivery)			78%
Newborns remain in uninterrupted skin-to-skin contact for at least 1 hour or until breastfed (cesarean delivery)			65%
Mother-infant dyads are NOT separated before rooming-in (vaginal delivery)			97%
Newborns are monitored continuously for the first 2 hours after birth			92%
<b>Rooming-In</b>	<b>76</b>	<b>86</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Mother-infant dyads are rooming-in 24 hours/day			78%
Routine newborn exams, procedures, and care occur in the mother's room			54%
Hospital has a protocol requiring frequent observations of high-risk mother-infant dyads			84%
<b>Feeding Practices</b>	<b>81</b>	<b>82</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Few breastfeeding newborns receive infant formula			19%
Hospital does NOT perform routine blood glucose monitoring on newborns not at risk for hypoglycemia			100%
When breastfeeding mothers request infant formula, staff counsel them about possible consequences			65%

<b>Feeding Education &amp; Support</b>	<b>National Subscore</b>	<b>94</b>	<b>Massachusetts Subscore</b>	<b>96</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Mothers whose newborns are fed formula are taught feeding techniques and how to safely prepare/feed formula					78%
Breastfeeding mothers are taught/shown how to recognize/respond to feeding cues, to breastfeed on-demand, and to understand the risks of artificial nipples/pacifiers					81%
Breastfeeding mothers are taught/shown how to position and latch their newborn, assess effective breastfeeding, and hand express milk					89%
<b>Discharge Support</b>	<b>National Subscore</b>	<b>78</b>	<b>Massachusetts Subscore</b>	<b>86</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Discharge criteria for breastfeeding newborns requires direct observation of at least 1 effective feeding at the breast within 8 hours of discharge					89%
Discharge criteria for breastfeeding newborns requires scheduling of the first follow-up with a health care provider					92%
Hospital's discharge support to breastfeeding mothers includes in-person follow-up visits/appointments, personalized phone calls, or formalized, coordinated referrals to lactation providers					84%
Hospital does NOT give mothers any of these items as gifts or free samples: infant formula; feeding bottles/nipples, nipple shields, or pacifiers; coupons, discounts, or educational materials from companies that make/sell infant formula/feeding products					78%
<b>Institutional Management</b>	<b>National Subscore</b>	<b>76</b>	<b>Massachusetts Subscore</b>	<b>83</b>	<b>Massachusetts Hospitals with Ideal Response</b>
Nurses are required to demonstrate competency in assessing breastfeeding (milk transfer & maternal pain), assisting with breastfeeding (positioning & latch), teaching hand expression & safe formula preparation/feeding, and demonstrating safe skin-to-skin practices					84%
Hospital requires nurses to be formally assessed for clinical competency in breastfeeding support/lactation management					84%
Hospital records/tracks exclusive breastfeeding throughout the entire hospitalization					97%
Hospital pays a fair market price for infant formula					62%
Hospital has 100% of written policy elements <sup>§</sup>					49%

\*Scores range from 0 to 100, with 100 being the best possible score. The "Total Score" is an average of the subscores for the 6 subdomains.
