Change happens one step at a time.

I'm walkin'. Yes, indeed.

(Ralph Waldo Emerson)

## In one minute,

a 150 pound
person burns
approximately
10 calories
walking up stairs,
and only 1.5 calories riding an elevator.

Walking up stairs burns almost 5 times more calories than riding an elevator.

## There are

1440 minutes
in every day... schedule 30
of them for
physical activity.

## Small

steps
make big
differences.
