

HEPATITIS A AND B VACCINATION.

A photograph of two men sitting outdoors on a concrete ledge. The man on the left is wearing a white polo shirt with purple and blue stripes and blue jeans. The man on the right is wearing a light purple button-down shirt and light blue jeans. They are both smiling and looking towards the camera. The background is a blurred green landscape with trees.

There's no question – it's easy prevention. Gay and bisexual men are at risk for hepatitis A and B.

Take charge. Protect yourself. Get vaccinated.
