**Subject:** Pantex site profile

**I have reviewed the Pantex profile information. It is consistent with the information presented and discussed at the NIOSH meeting we had at the site. I have distributed information to our Security Force to assist in getting contacts to retirees and effected employees. The baseline information is very valuable to us on your website. I will continue to disseminate information. I wish to thank NIOSH and its staff for their efforts in building the site profile information. Sincerely Mike Stumbo Pantex PGU Safety Officer**
