

3 APRIL, 1984

This letter was requested by the Filter Techs. as verification to the events that happened on 3 March 1984 in building 707 Annex plenum. The following happened as I remember it. These notes were written on 3 and 6 March 1984 and are typed as written in my notes.

3 March 1984: Arrived for production on PMS. Told it was supplied air. Told I didn't know a thing about it (supplied air) and would do it under protest. threatened to send me home, I was ready to go. Worked two supplied air jobs with 3 monitors. Job went to hell..... Two baggers outter in pen, and got hot. Hair, neck, wrist less than 10,000c/m decontaminated to less than detectable. 2 more in center between pen and plenum and Chest area 75,000 c/m, hair and mask area 30,000 c/m Took to decon room they took 20 minutes in a cool shower, readings are as follows: front right shoulder 2,000c/m, sternum 500 c/m abdomen 500 c/m thigh 500c/m, right foot 500c/m, hair 8,000c/m back of neck 7,000c/m, back and lumbar area 1,000c/m to 3,000c/m, right arm 500c/m, buttox area 1,000 to 2,000c/m. Some hair removed decontaminated to non detectable.

hair 10,000c/m, chest 2,000c/m, right arm 250c/m left ear 1,000 c/m right ear 1,500c/m deconned to non detectable

**** NOTE **** BOTH PERSONNEL LOST FULL FACE AT JOB. BOTH WERE CHANGED AT JOB SITE WHICH WAS A FULL FACE AREA.

4 March 1984: Midnight shift following incident.

Filled out reports for me to throw them away, said would fill them out. ?HOW??

6 March 1984: Thought before too much time passed should write what occurred in order on 3 March Pms Supplied Air.

1. asked me for O.T. 707 Production on 3 March Mids.
Told I would accept as long as it wasn't Supplied Air.
He replied no Supplied Air on plant this weekend.
heard conversation.
2. Passed thru 776 aproximately 3:30pm and said I was
working supplied air. Replied I accepted O.T. for production. Told me to
see in 707.
3. Went to 707 saw he stated I was on supplied air. Told him
I accepted O.T. for production (check time card, I was still charged
to production) said it was up to he was finished for the
day
4. Heard r had been working all day and went up to help/
relieve him aprox 4:30pm
5. a putting filter techs on hot side.
said he was going home. I raised hell because I didn't know the suit
and 2 supplied air carts were going to be ran. Called
6. Told and voiced a very loud objection and why. He said he
would come up. (In the mean time both sides of plenum had filter techs in
them.
7. came up a beistress descussion occured and he said he could
send me home with show up pay, I said send me home, his reply NO, NO
then walked off.
8. booties kept coming up hot. House was crapped up
2 to 5k all over. Laid new floor NO-GOOD
9. Bagging out started. 8 or 9 filters to come out. About the
fifth filter SAAM went off aproximately 30 feet away.
10. Finnished bagging out. Both Johns hot 5 to 10k all over them.
took to decon room, both showered with Full Faces on. Both came out clean
11. Went back to help 2. two more for decon room. 75K +
all over them. Changed F/F on job site.
12. Both in shower with full faces on for 5 minutes then removed full face
Both showered aproximately 20 minutes and had towels to wash with.
13. The rest is history. see accident reports filed 4 March 1984
