Do you feel sick?

You may have the flu if you have fever or chills

AND

a cough or sore throat

You may also have a runny nose, body aches, a headache, tiredness, diarrhea, or vomiting

If you think you have the flu, stay home or in your residence, except to get medical care.

For more information visit www.cdc.gov/flu
or call 1 (800) CDC-INFO (232-4636)
