

6.4.2 Smoking Status Recodes in the NHIS, by Year

The information for each year includes: year, file description, filename, column number and/or variable name, variable label, answer codes/values, and value labels. In this document, "Source" refers to the location in the data file, and "Reference" refers to paper documentation or a published report.

After an 18 month interim period from July 1967-December 1968, NHIS data collection switched to a calendar year in January, 1969, to make the health data more compatible with other health related statistics. For 1968, two sets of core files were released, one covering Calendar Year 1968 (January 1, 1968- December 31, 1968) and Fiscal Year 1968 (July 1, 1967 – June 30, 1968).

In June of 1966, there was an additional smoking supplement to the Current Population Survey, sponsored by the Current Population survey, with the data collected by Bureau of the Census Field Staff. DHIS carried out the computer processing of this file. The documentation lists it as "CPS Smoking Supplement, 1966 (HIS Project). DHIS released this file in 1968, and it does contain a smoking status recode.

1966 FISCAL YEAR

The 1966 NHIS smoking questions were printed on a “Smoking Habits” page that was bound into the core questionnaire booklet, Form NHS-HIS-1a (FY66). The interviewer instructions were to: “Fill one Smoking Habits page for each person 17+ years old or over”. Two copies of the page were included. The fiscal year extended from July 1, 1965 – June 30, 1966.
