38. Call Center

Enrollment over Lifetime of Program consists of all unique individuals ever enrolled in the Program, including those individuals who have been subsequently disenrolled or died. The Program does not track cause of death for deceased members; thus, cause of death may or may not be WTC-related.

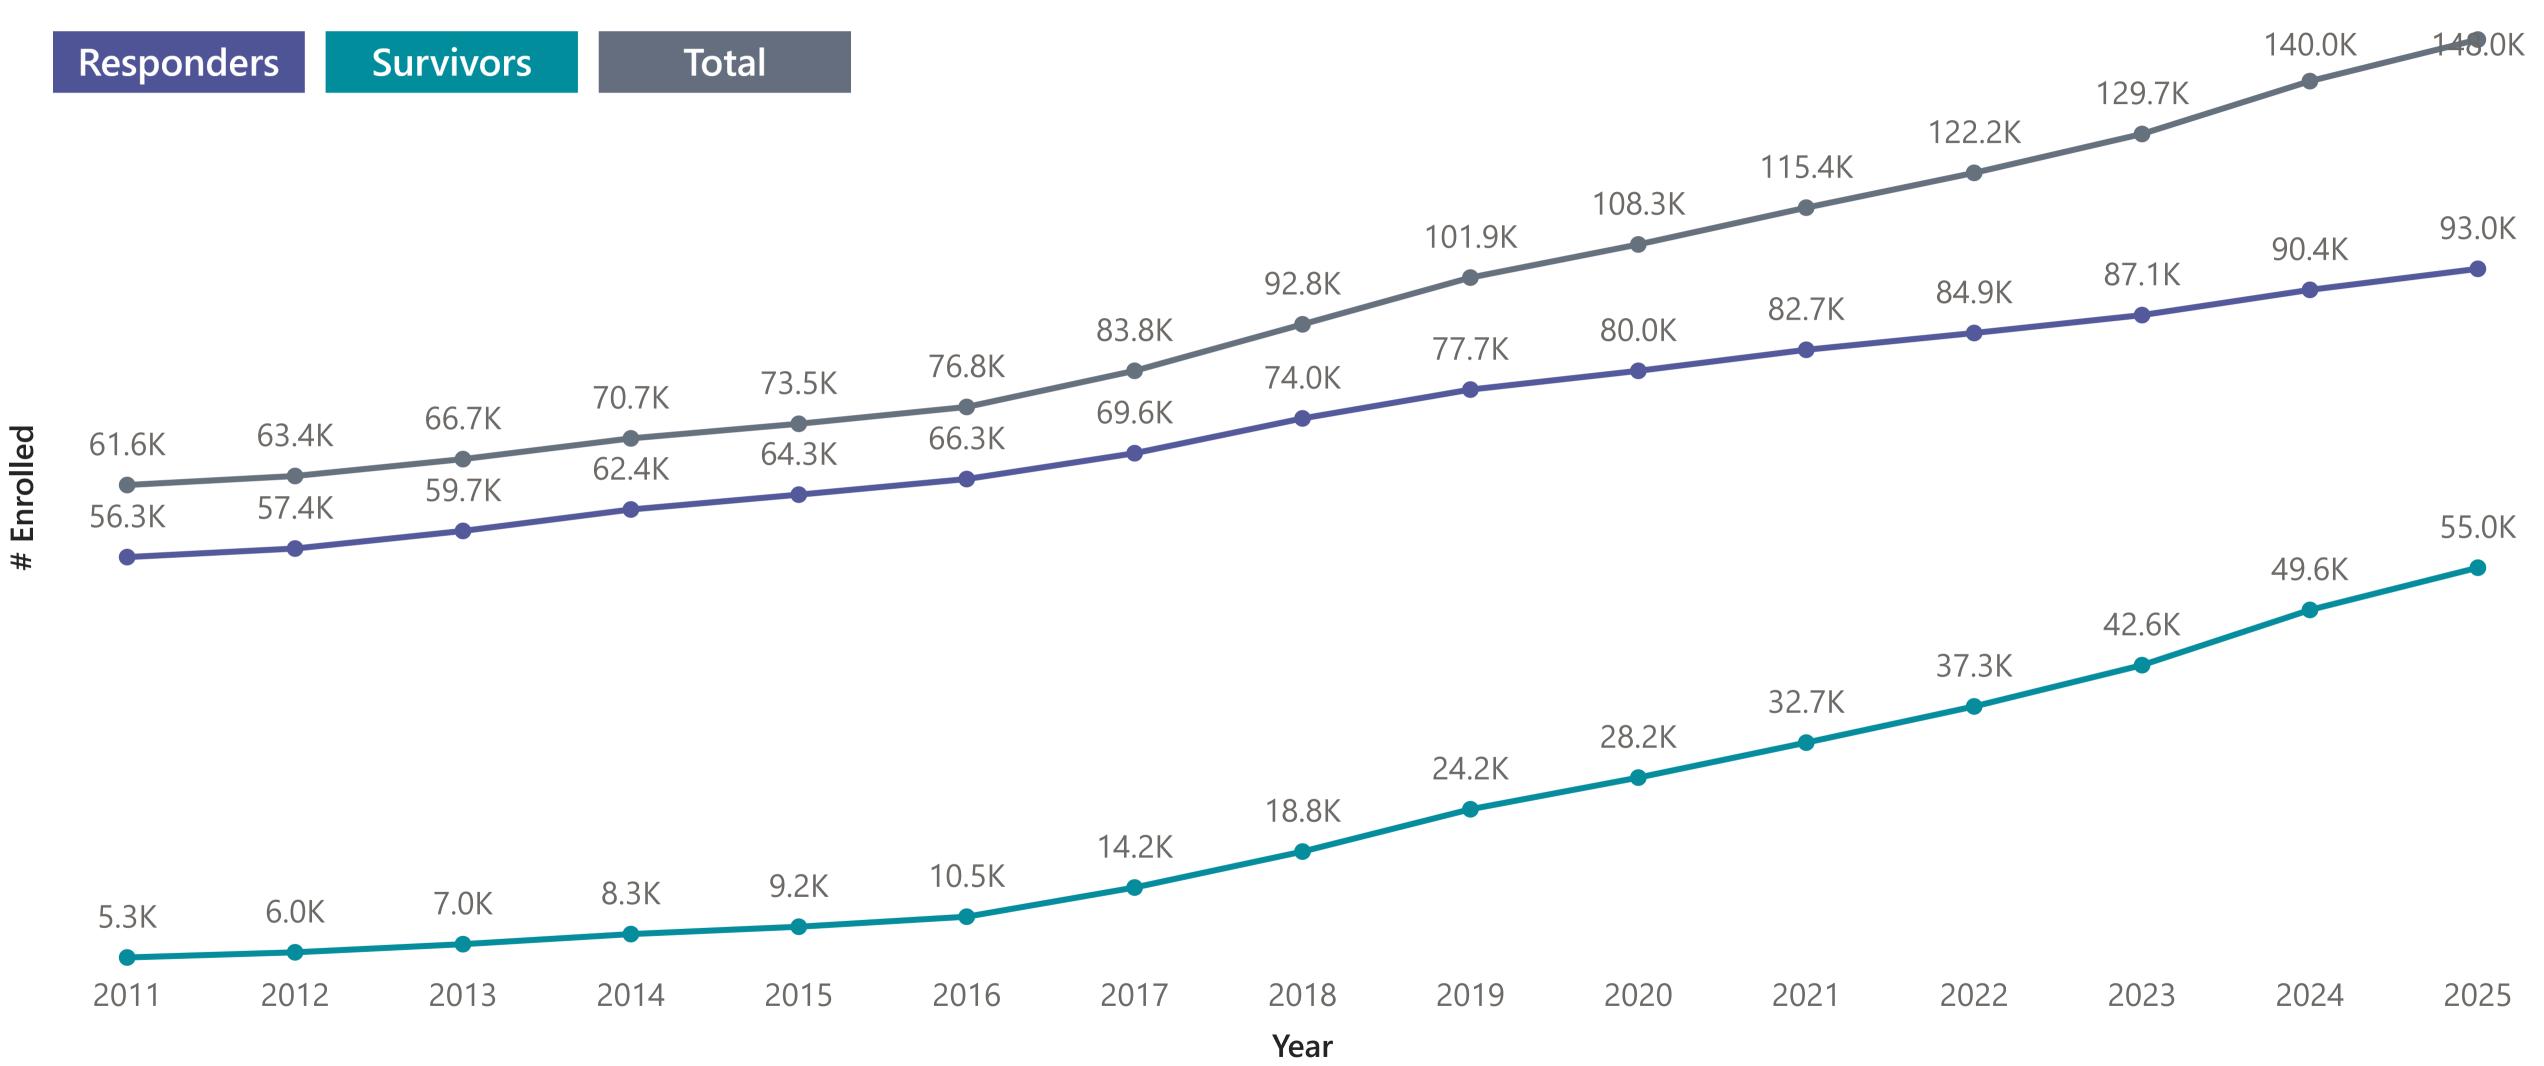

Currently enrolled members do not include deceased or disenrolled members.

^{*}The following note applies to several pages on this dashboard.*

WTC Health Program Enrollment

1. Change in Total Enrollment Over the Lifetime of the Program

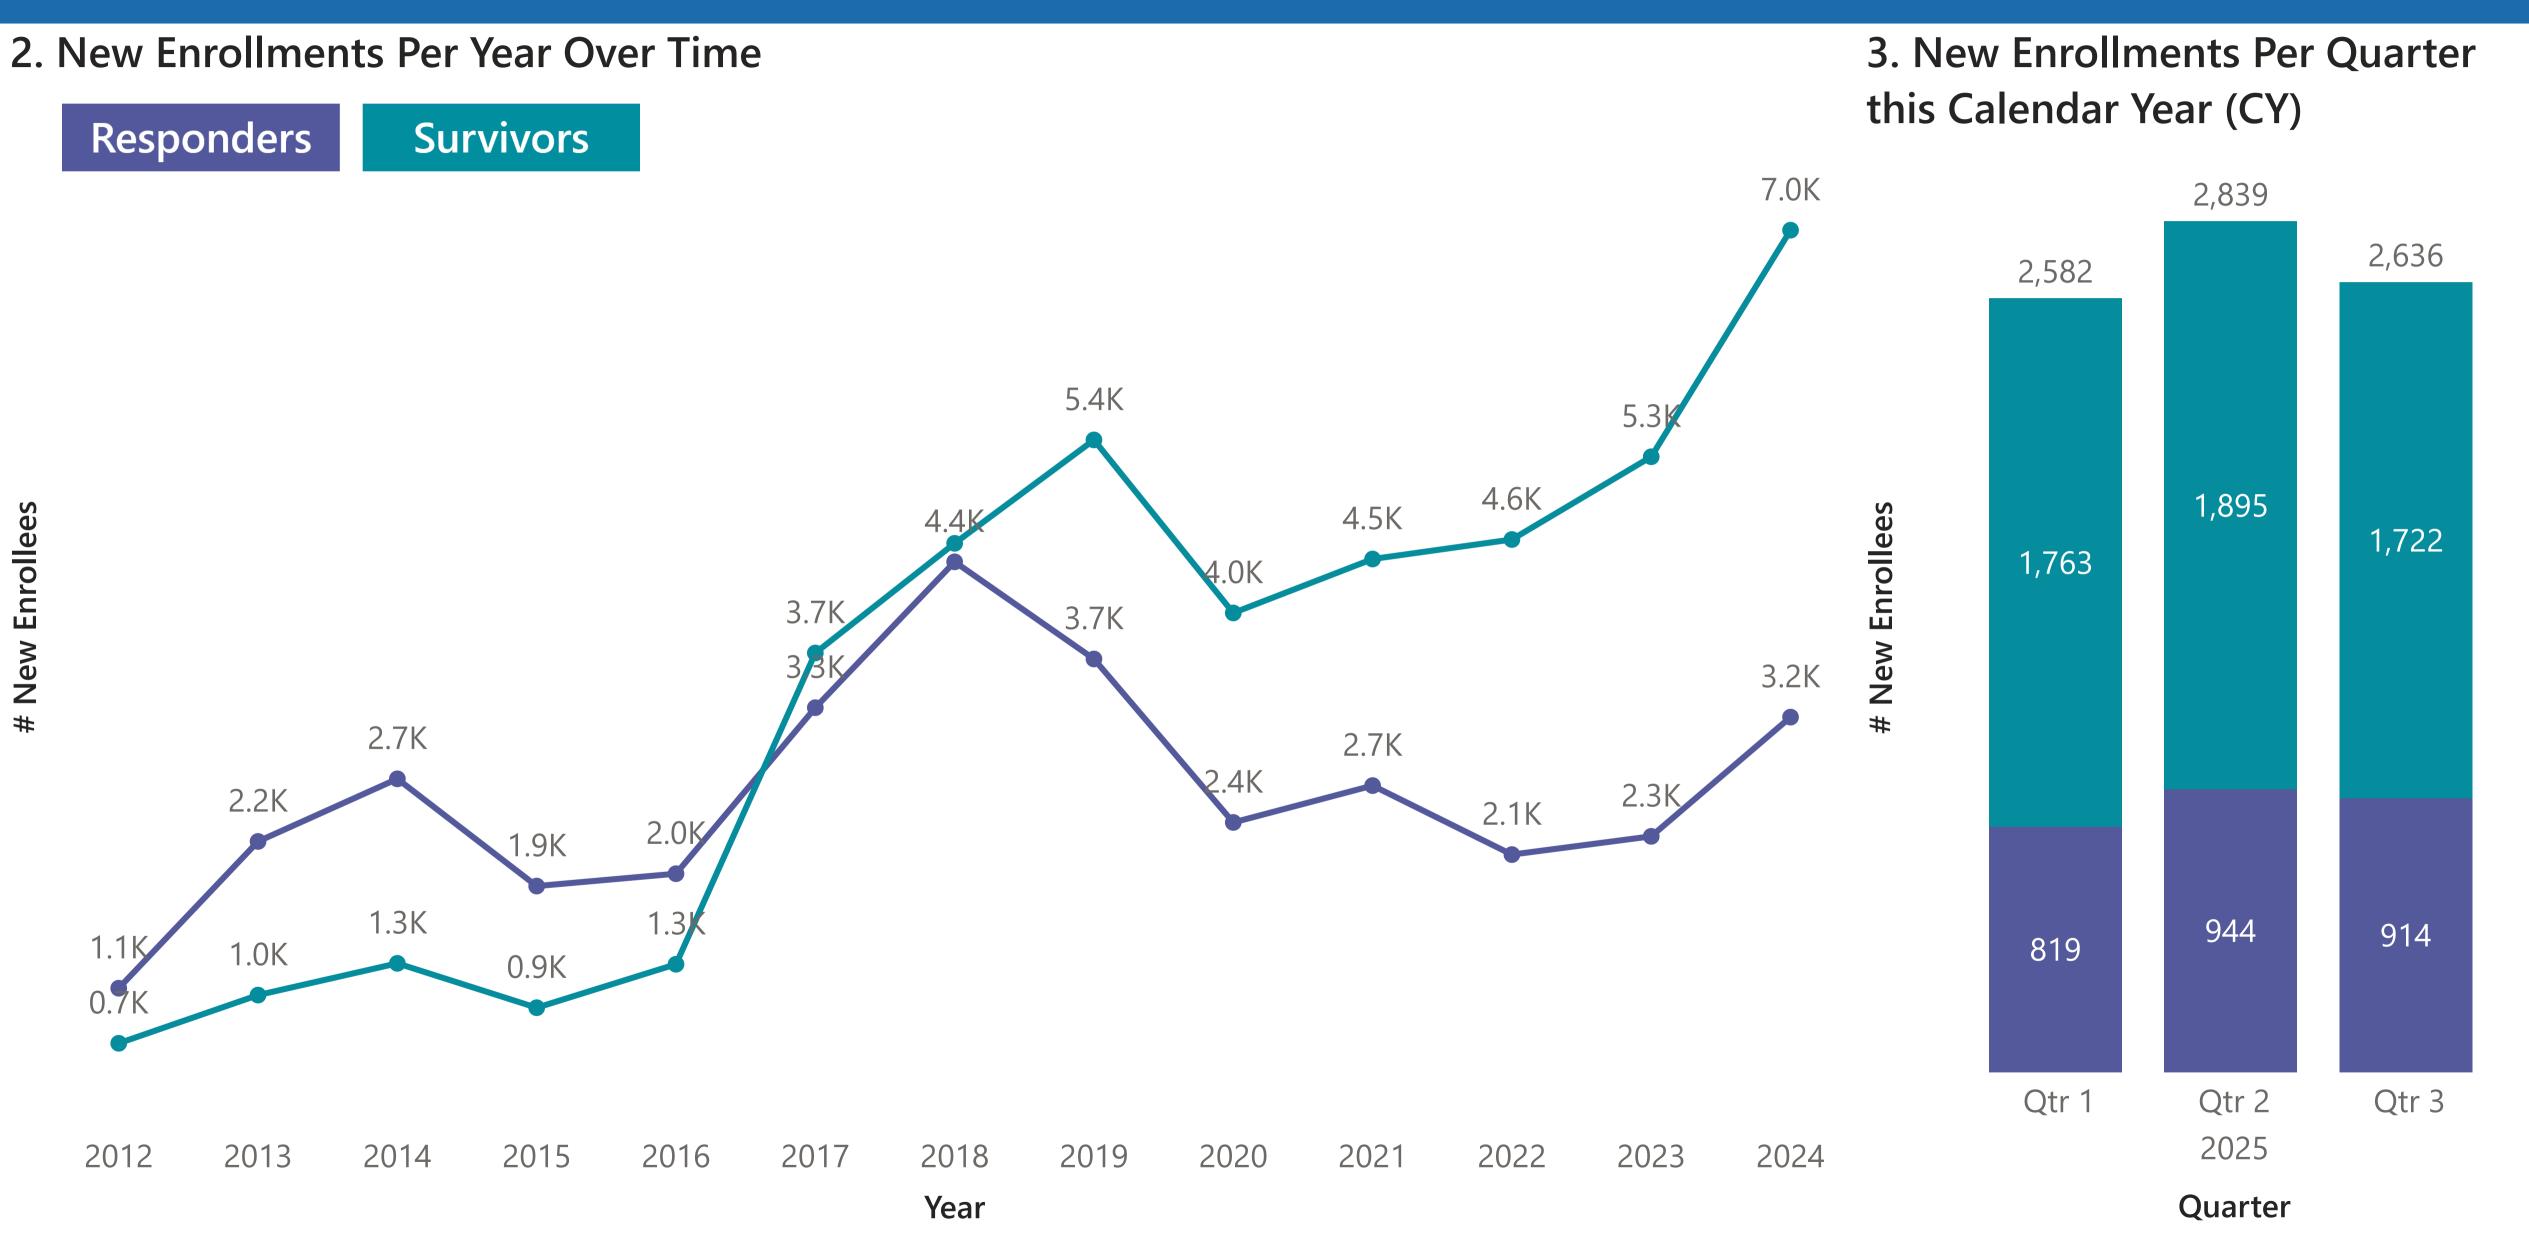

Enrollment over Lifetime of Program consists of all unique individuals ever enrolled in the Program, including those individuals who have been subsequently disenrolled or died. Deceased members include all causes of death; cause of death may or may not be WTC-related.

Currently enrolled members (as seen on subsequent pages) do not include deceased or disenrolled members.

WTC Health Program Enrollment

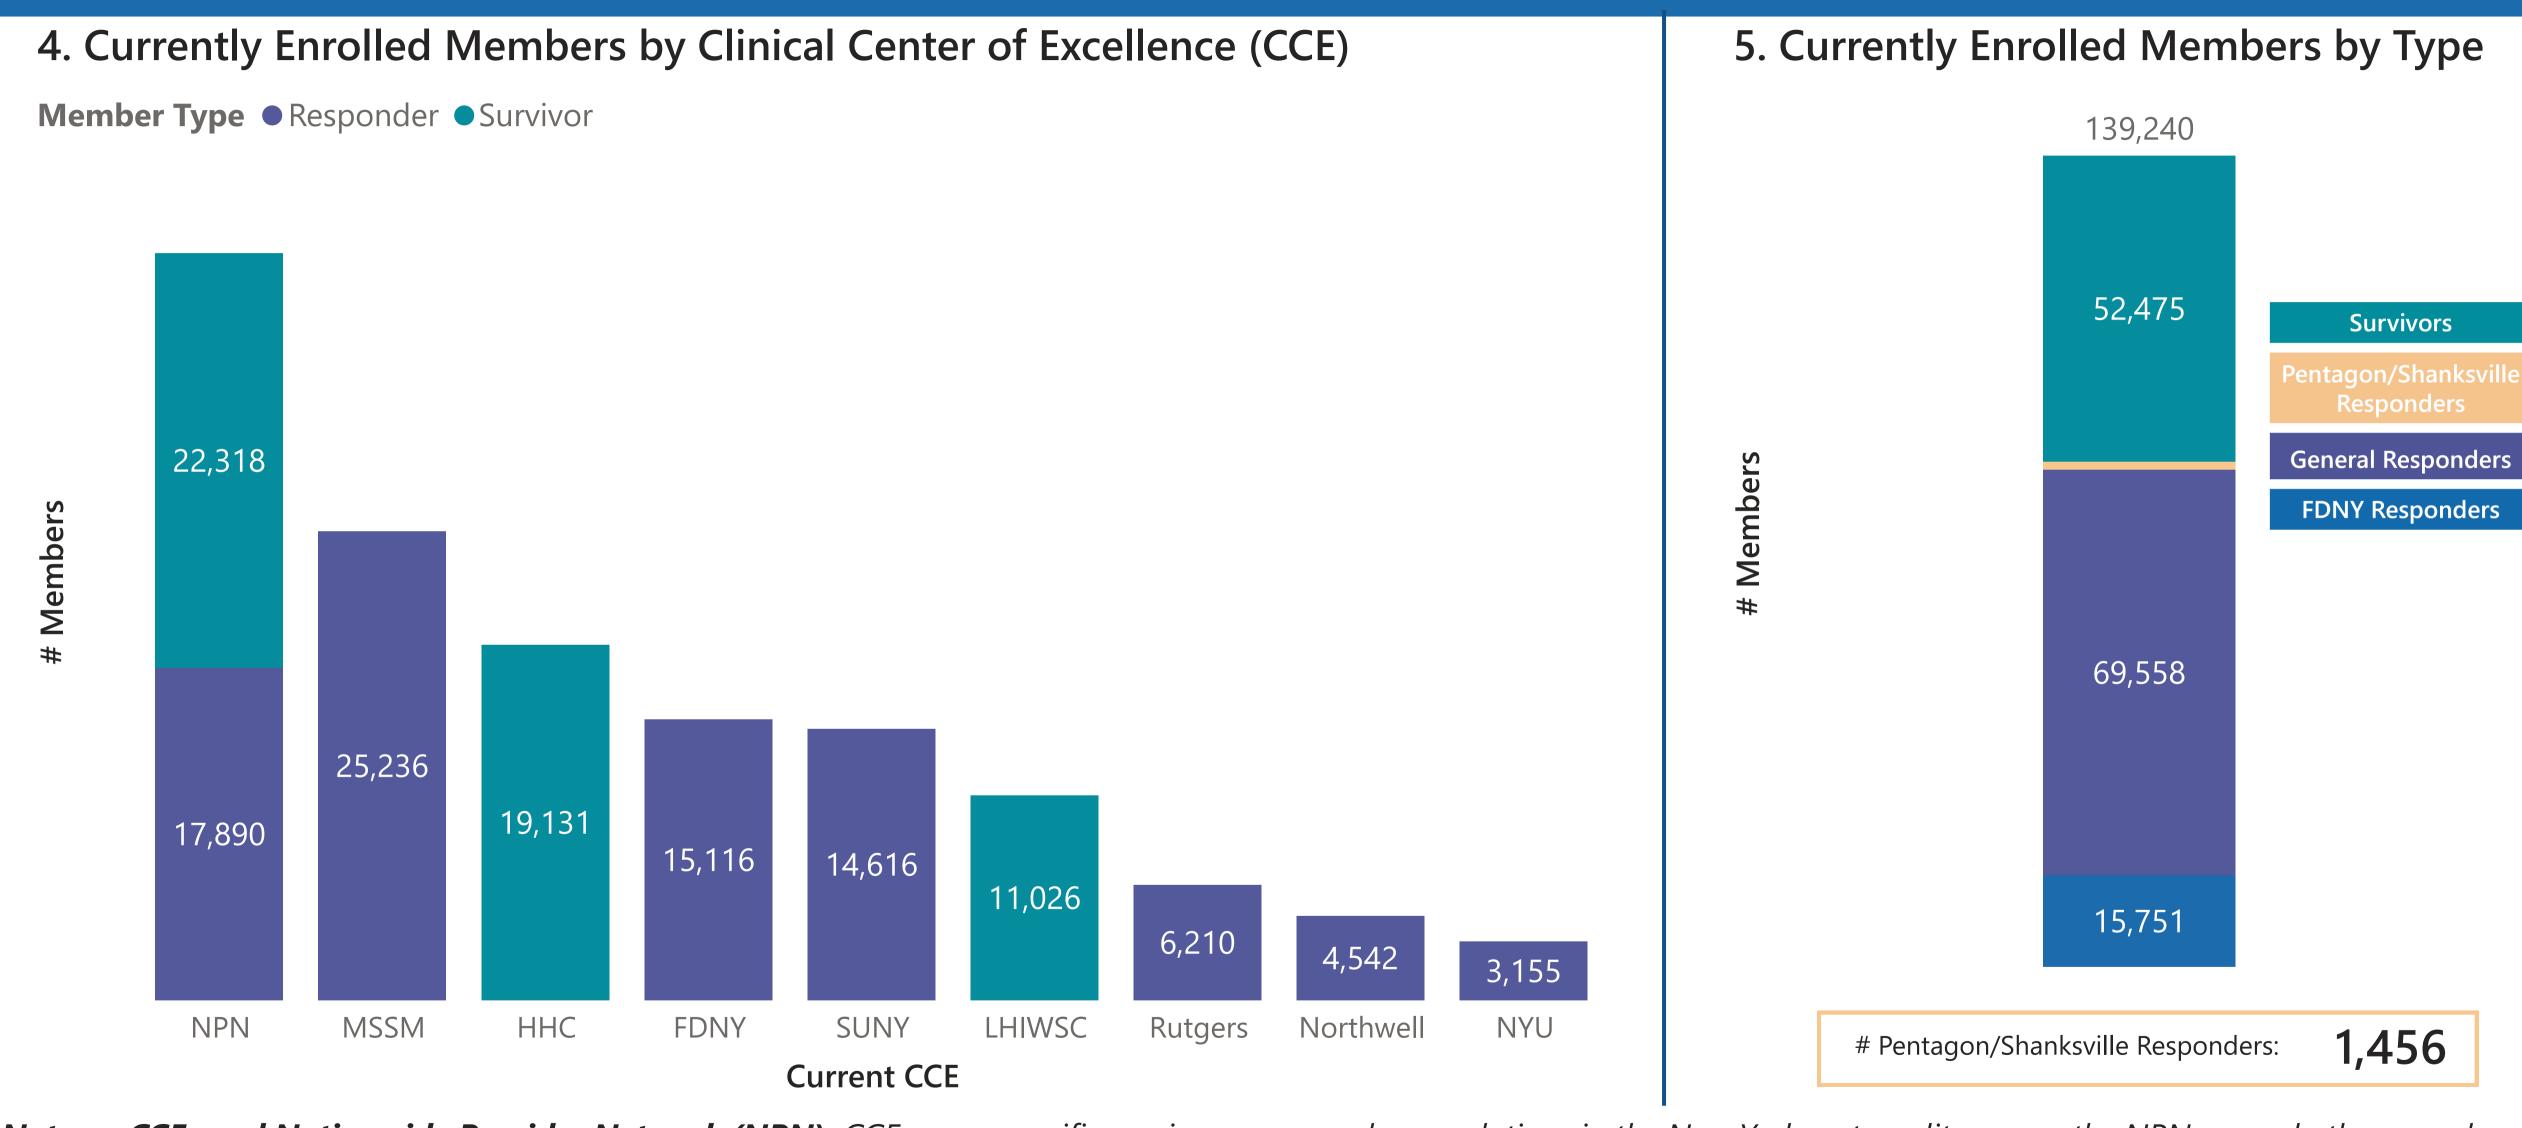

Note on Figure 2: 'New Enrollees' are those new members enrolled in the stated calendar year; numbers are not cumulative.

CCE Enrollment and Member Type

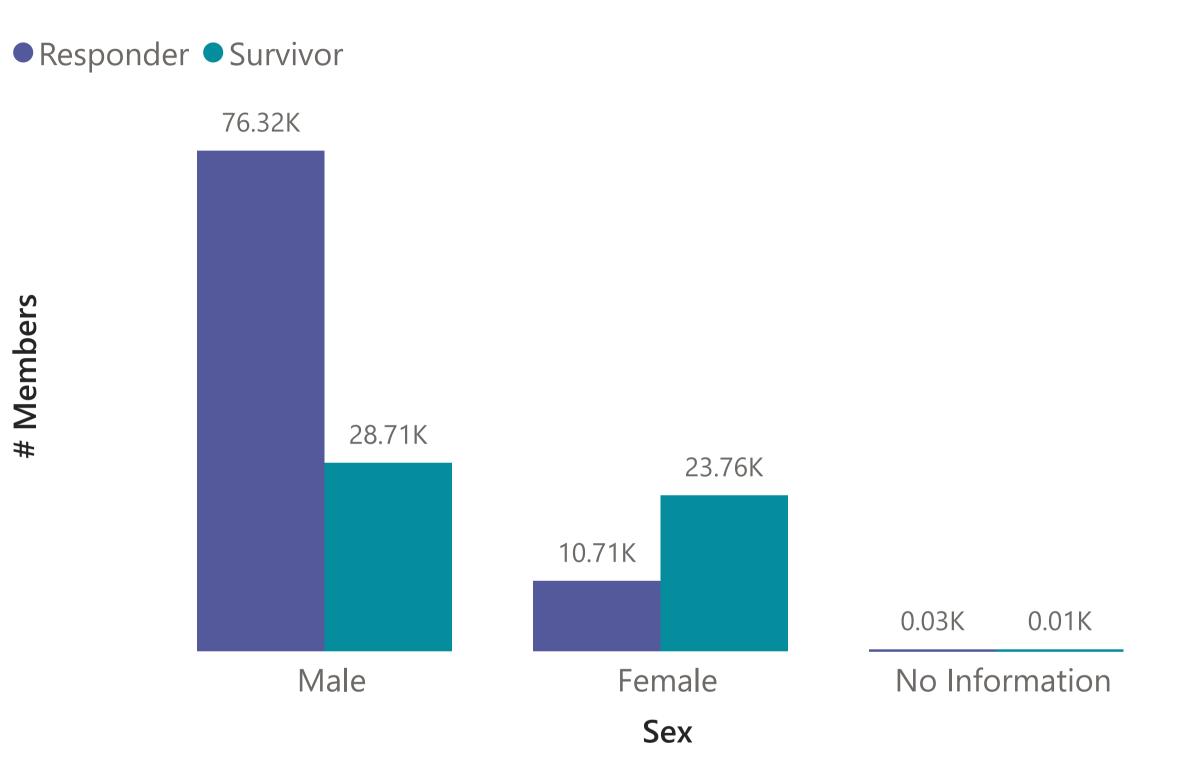

Note on CCEs and Nationwide Provider Network (NPN): CCEs serve specific survivor or responder populations in the New York metropolitan area; the NPN serves both responder and survivor members residing outside of the New York metropolitan area. Members who are not actively assigned to a CCE are not included in Figure 4. **CCE Abbreviations:** Jeabs School of Medicine at Mount Singi (MSSM), NYC Health and Hospitals (HHC). Fire Department of the City of NY (EDNY). State University of NY Stony Brook

CCE Abbreviations: Icahn School of Medicine at Mount Sinai (MSSM), NYC Health and Hospitals (HHC), Fire Department of the City of NY (FDNY), State University of NY, Stony Brook (SUNY), William Street Clinic (LHIWSC), New York University Grossman School of Medicine (NYU)

Applications in Process - Received

12. Applications Received in Past Years

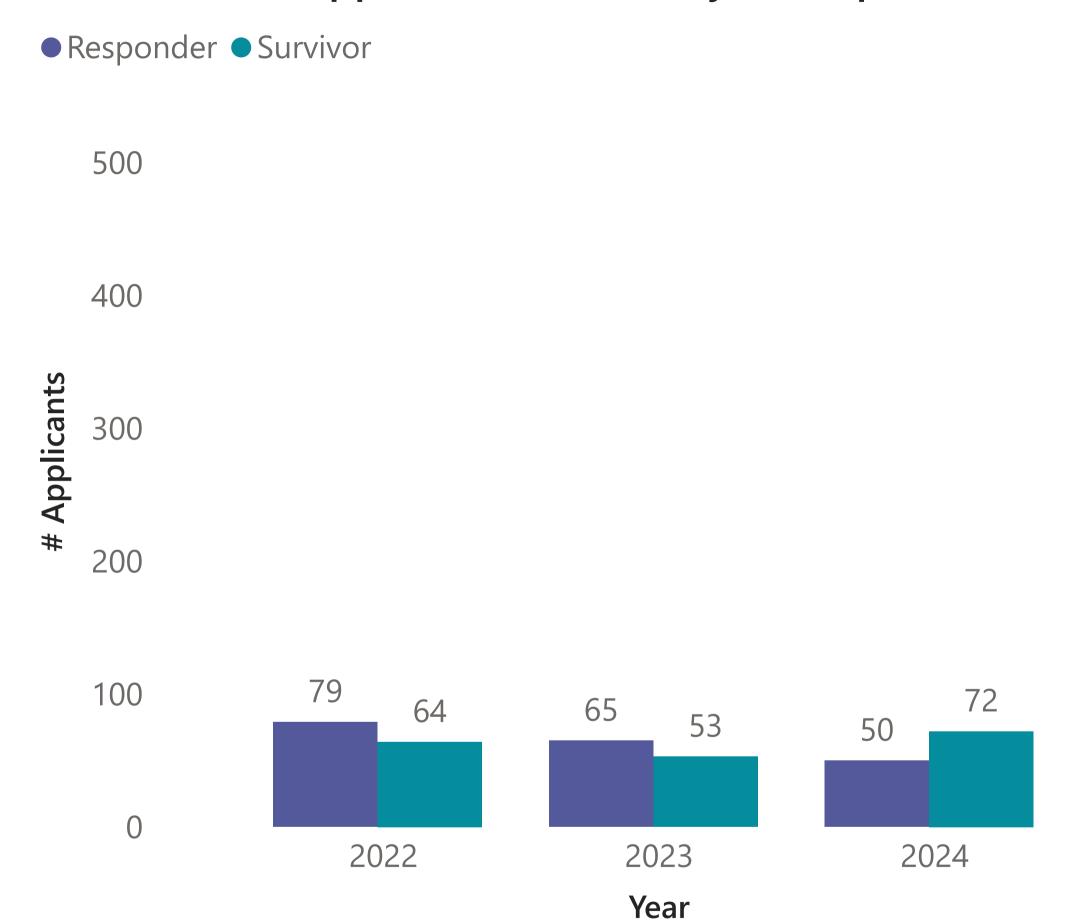

13. Applications Received in Current Calendar Year

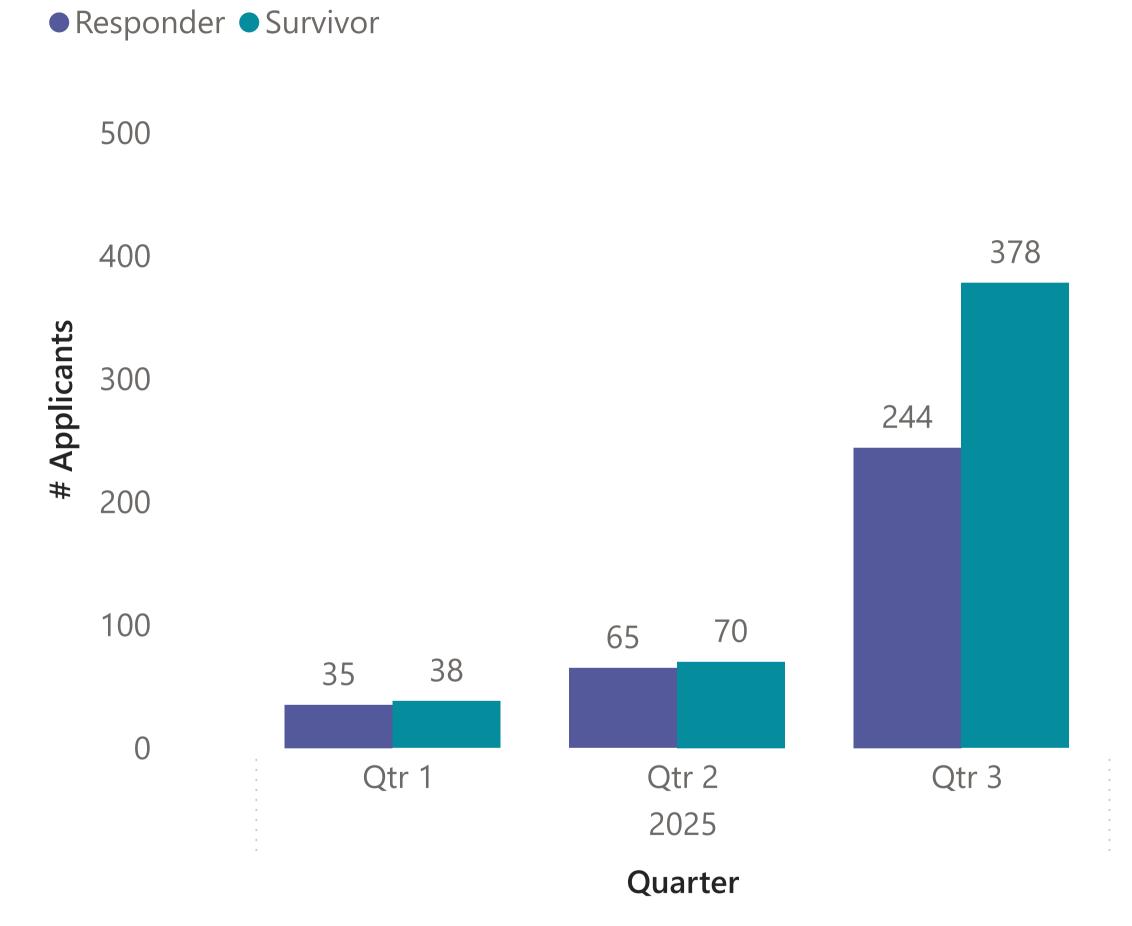

Applications in Process - Suspended

14. Prior Year Applications Currently in Suspend Status

15. Current Year Applications in Suspend Status

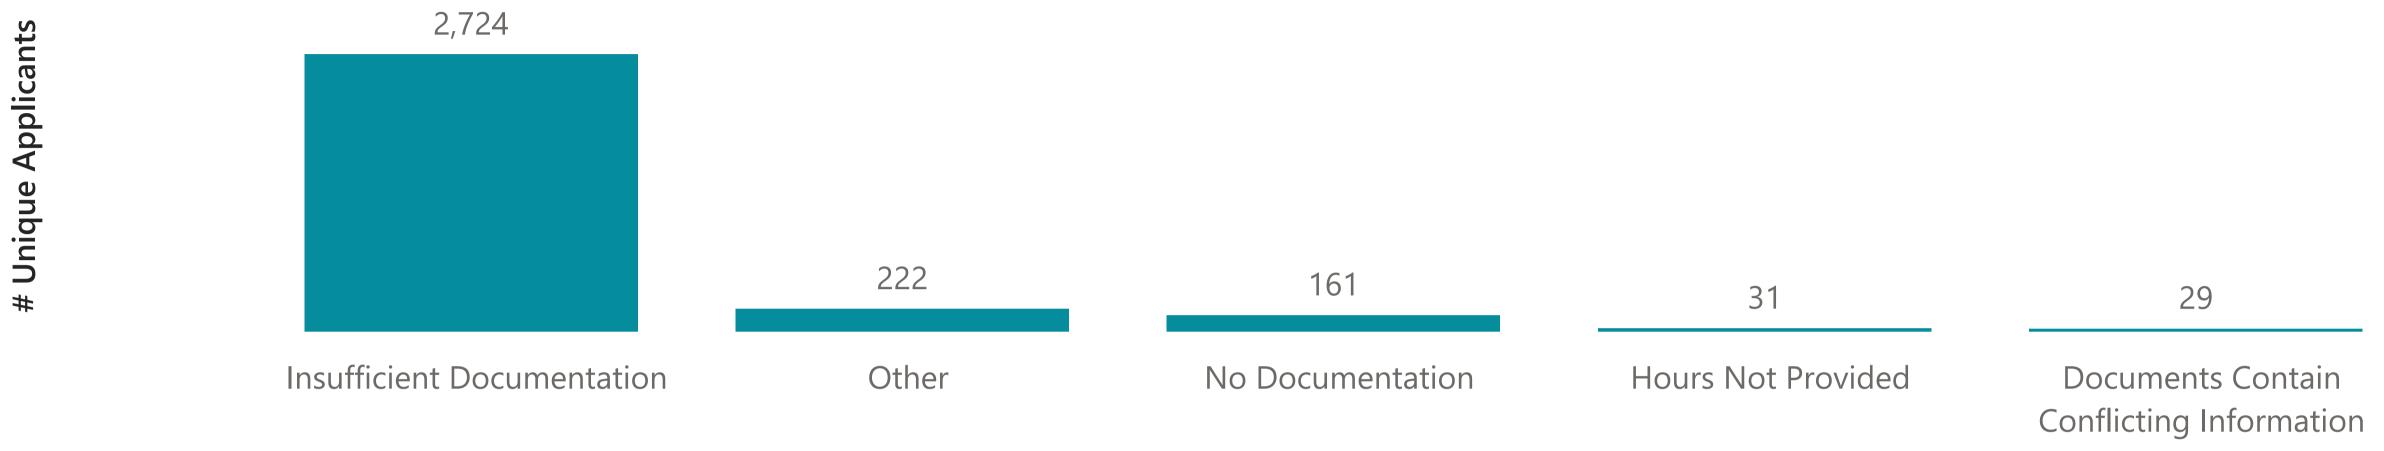

Note on Date Range for Application Data: In late 2021, the Program moved to using the online CARE system to process enrollment applications. For consistency in reporting, application data starts with 2022, the first full year of data from the new system.

Note on Suspended Applications: Incomplete applications are generally "suspended" but still considered "in process" until sufficient documentation is received to determine enrollment eligibility. An application may move in and out of suspend status throughout the application process. The number of prior year applications currently in suspend status is generally lower than the number of current year applications in suspend status due to sufficient information being received to move the application to active processing status.

Primary Reasons for Applications being Suspended

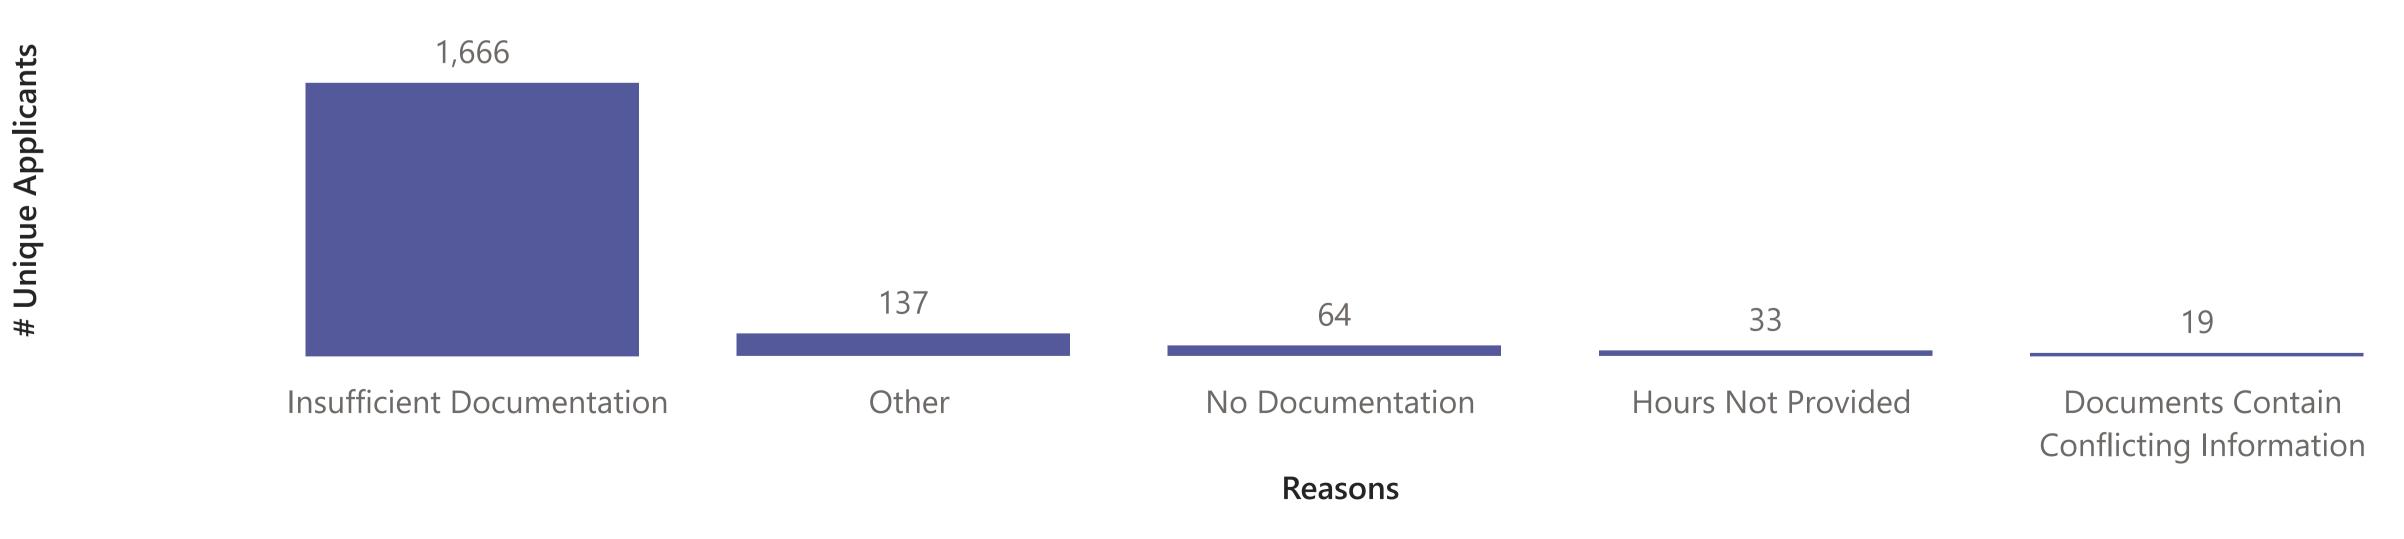

16. Top 5 Reasons for Suspended Survivor Applications in Past Year

Reasons

17. Top 5 Reasons for Suspended Responder Applications in Past Year

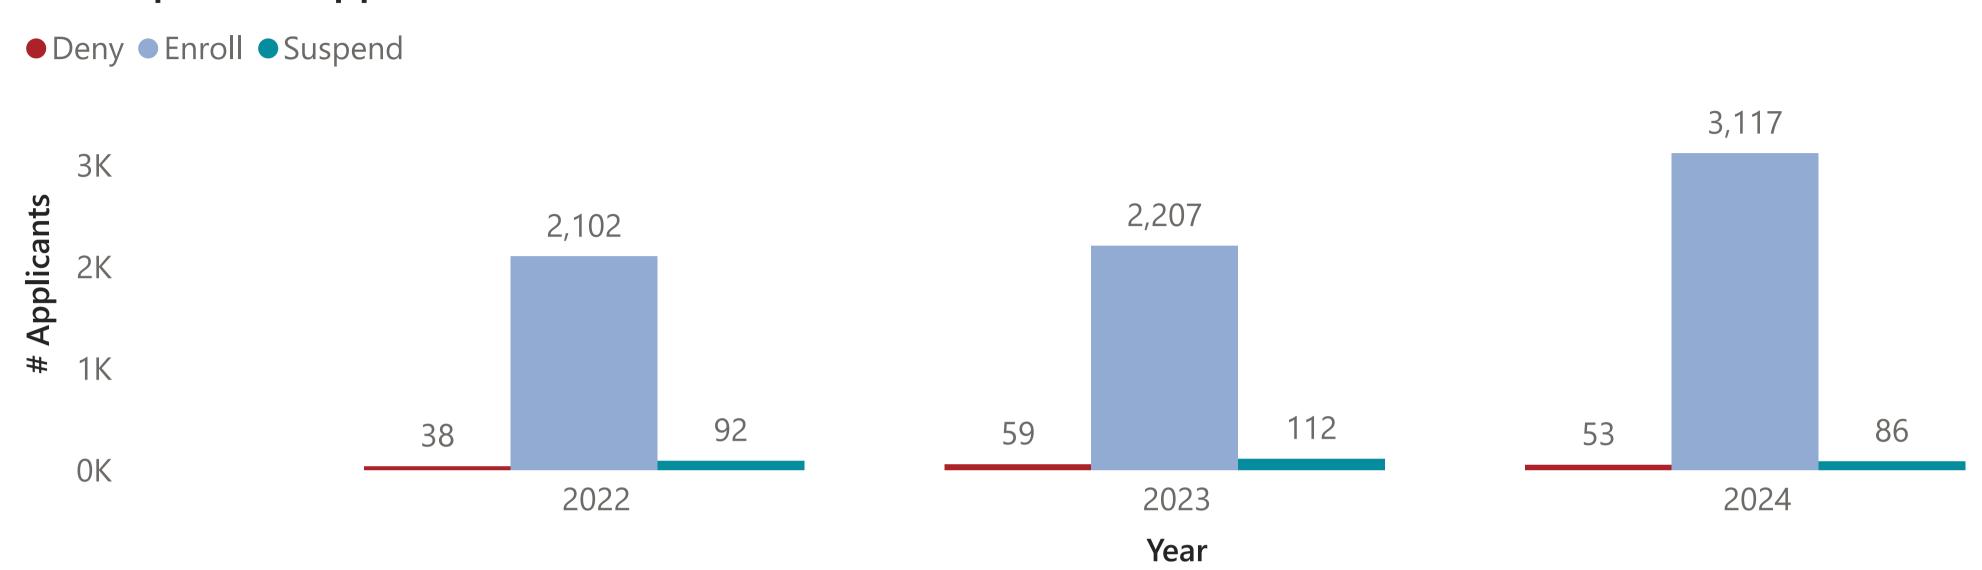

Note on Suspended Applications: After an application is suspended, the applicant is notified of the reason(s) the application was incomplete and unable to be fully processed and support is offered via the Member Services team and/or call center.

Trends in Finalized Enrollment Applications - Responders

18. Responder Application Decisions in Past Years

19. Responder Application Decisions in Current Calendar Year

Decision	Qtr 1	Qtr 2	Qtr 3
Deny	18	14	24
Enroll	805	923	894
Suspend	26	37	82

Top Denial Reason for Responder Apps in Past Year	
Insufficient Time	_

Note on Date Range for Application Data: In late 2021, the Program moved to using the online CARE system to process enrollment applications. For consistency in reporting, application data starts with 2022, the first full year of data from the new system.

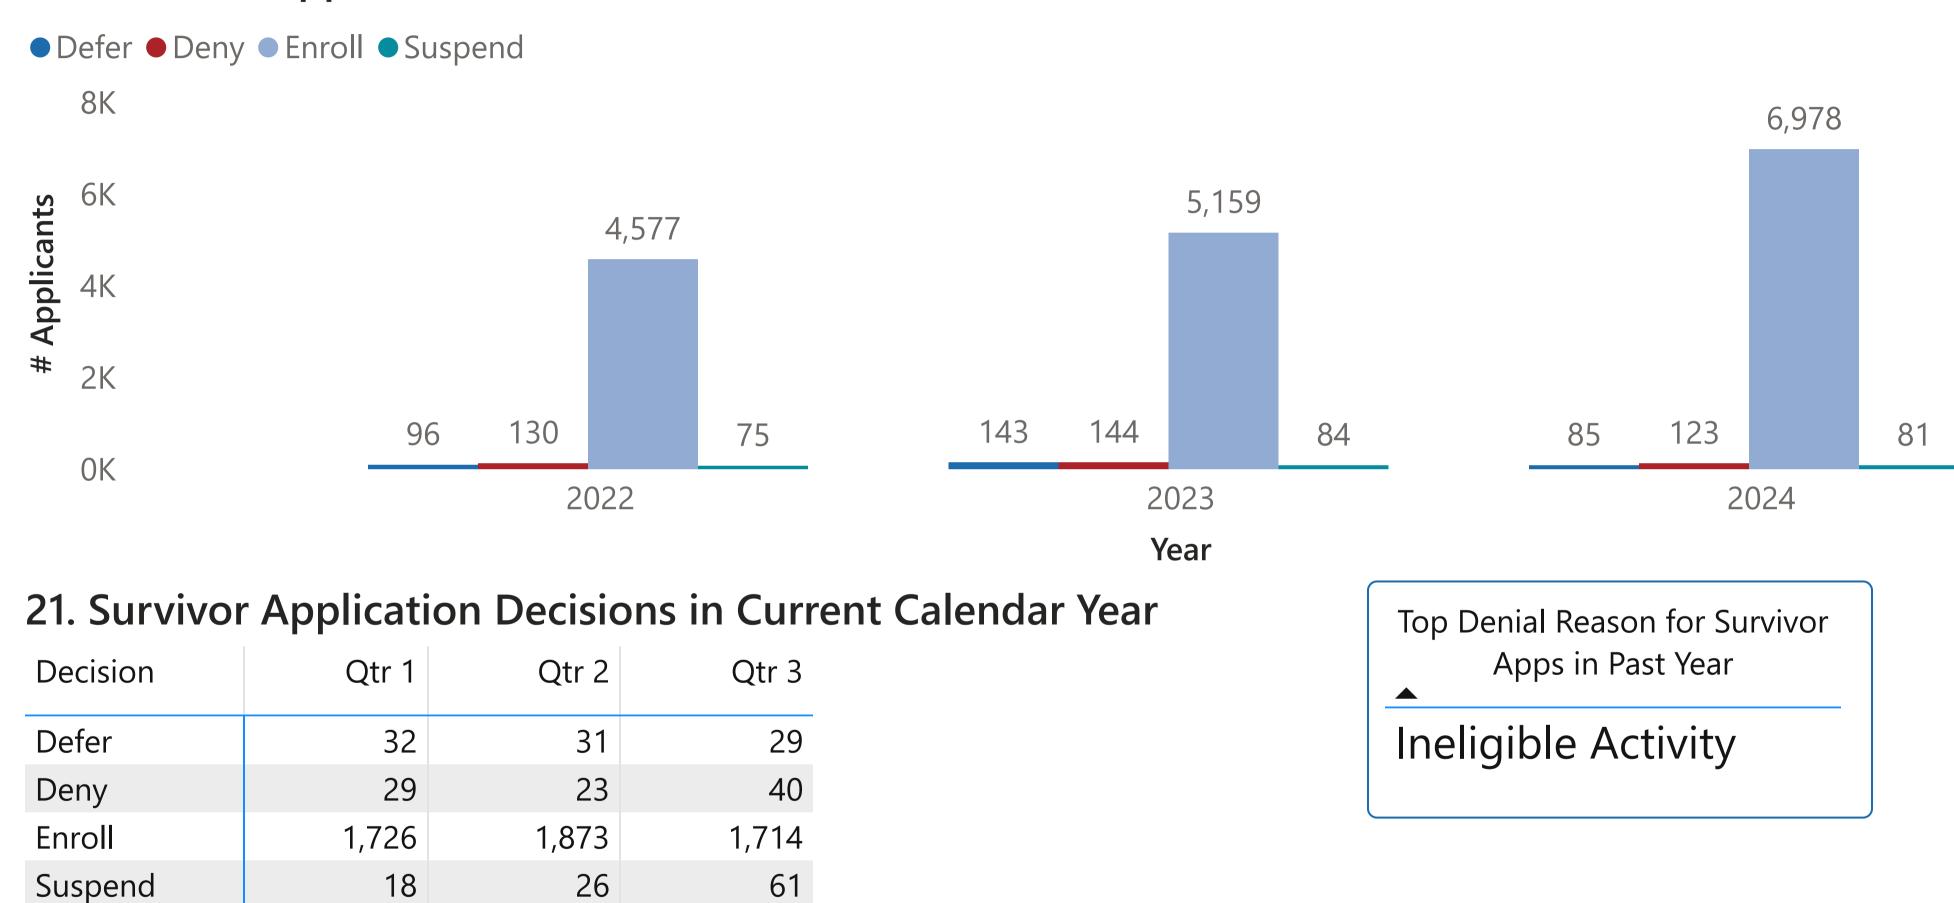

Note on Suspended Applications: Typically, incomplete applications are suspended prior to the application being sent to NIOSH for decision-making. This is why the total number of suspended applications is greater than the number of applications with a NIOSH decision of "Suspend".

Certifications by Health Condition Categories

35. Overall Categories for All Certified Conditions of Currently Enrolled Members

Aerodigestive Disorders
 Cancer
 Mental Health
 Musculoskeletal
 Acute Traumatic Injury

*ATI: Acute Traumatic Injury

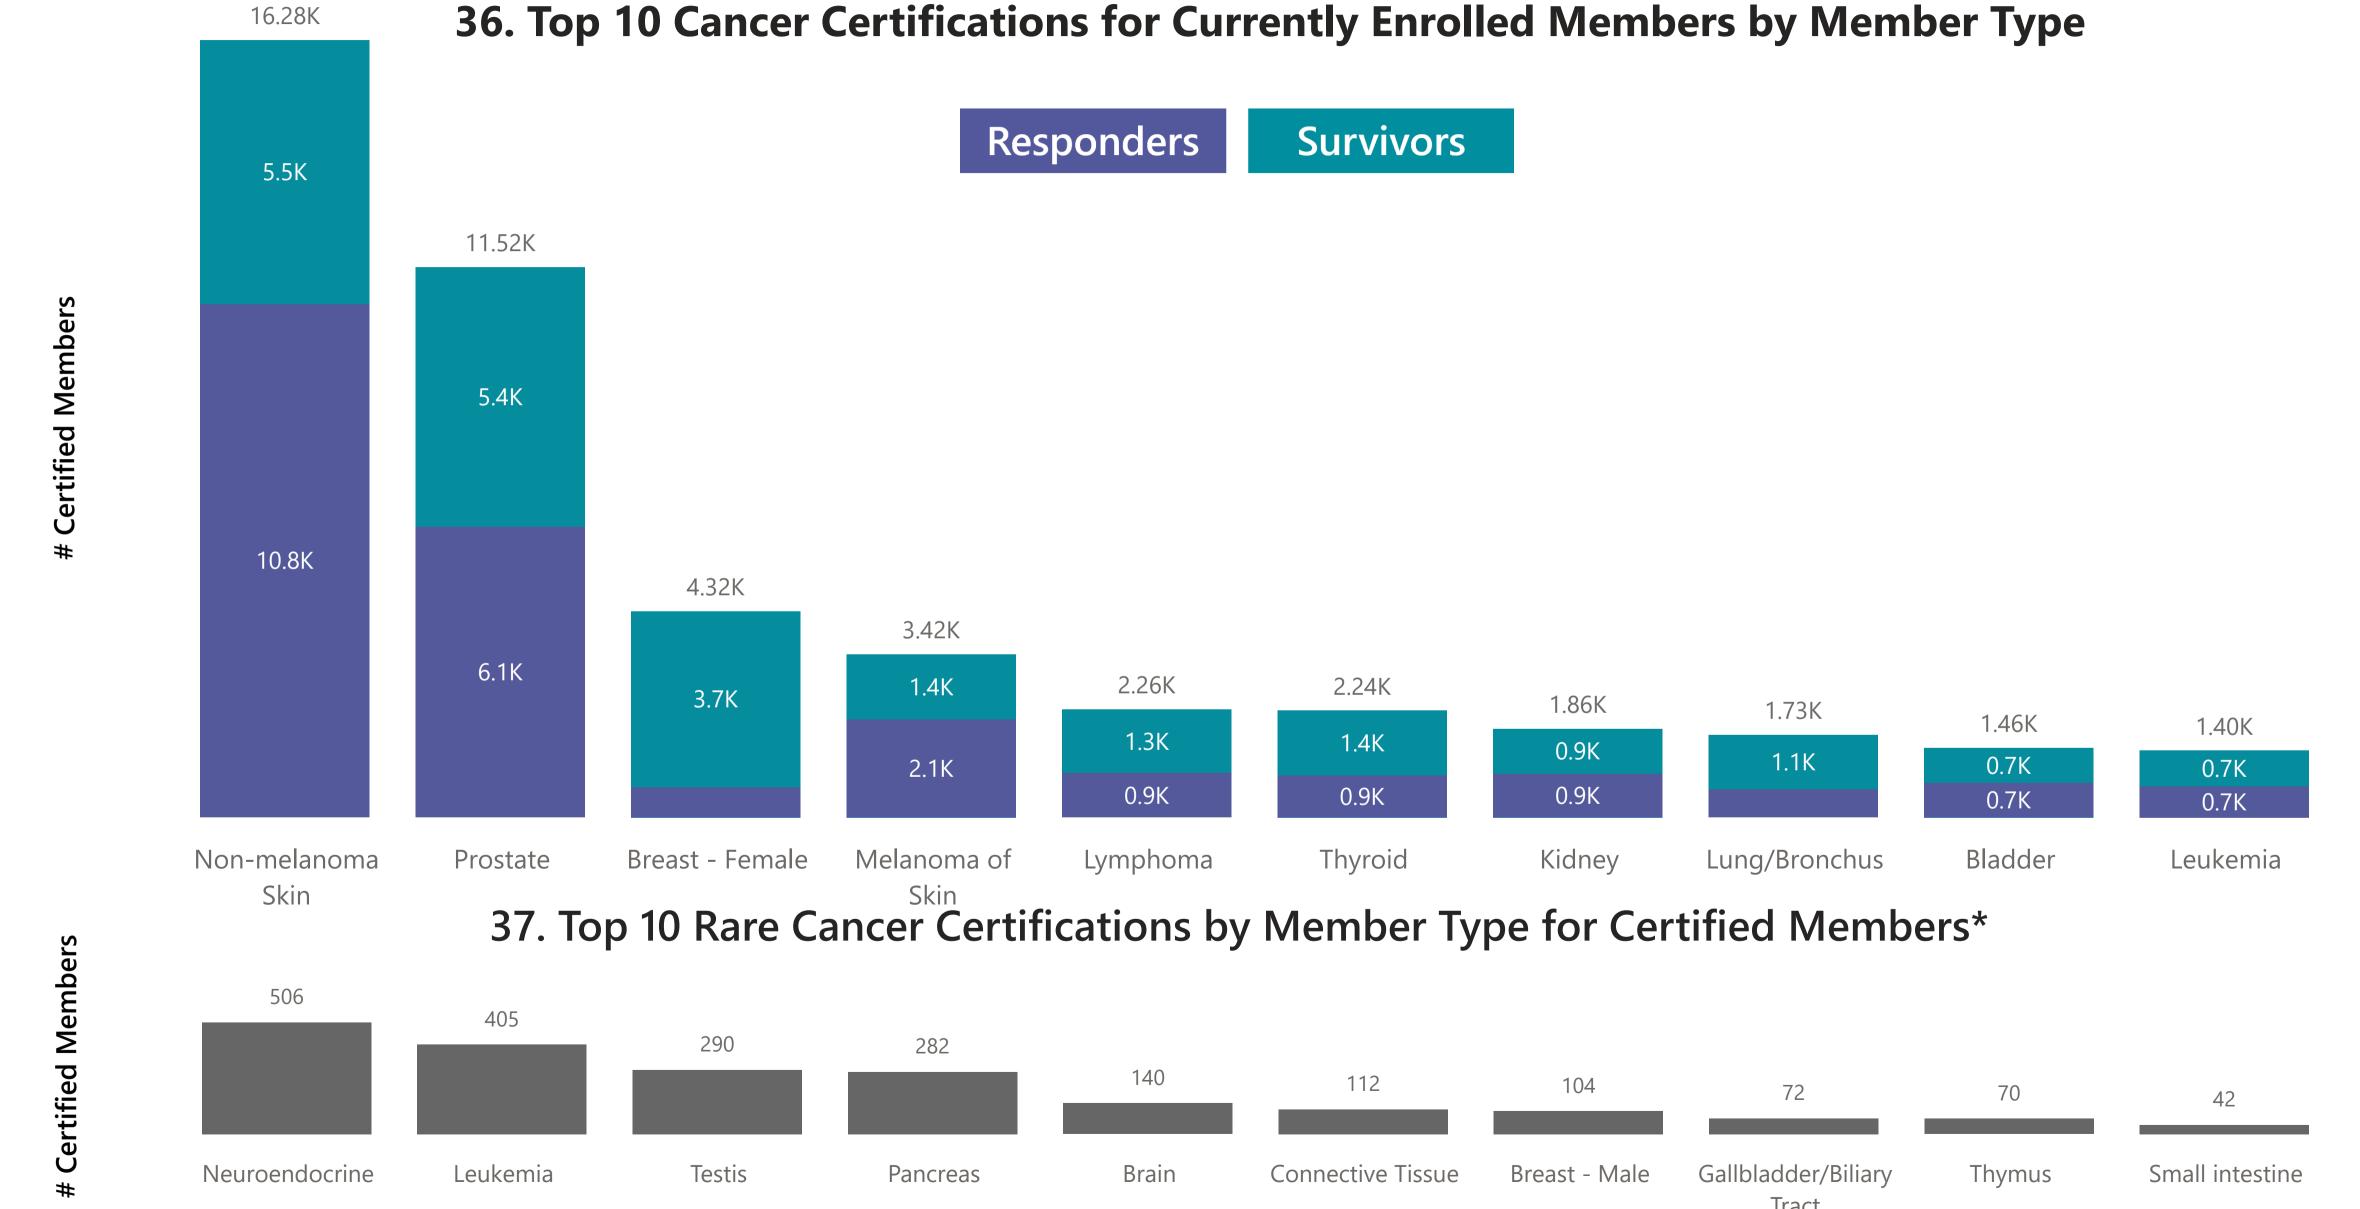

Note on Health Condition Categories: Health condition categories are established by Title I of the James Zadroga 9/11 Health and Compensation Act of 2010 (Pub. L. 111-347, as amended by Pub. L. 114-113, Pub. L. 116-59, Pub. L. 117-328, and Pub. L. 118-31) and 42 C.F.R. § 88.15.

Certified Members

Note on Certification Counts: The number of certified members per condition type may not match the total number of certified members because members may be certified for multiple conditions. Members may also be certified for multiple health conditions within a given category. The number of certifications in a given category do not correlate to prevalence of a specific health condition.

Top Cancer Certifications

^{*}Note on Rare Cancer Counts: Members with rare cancer certifications are reported as a total number and not identified by member type.

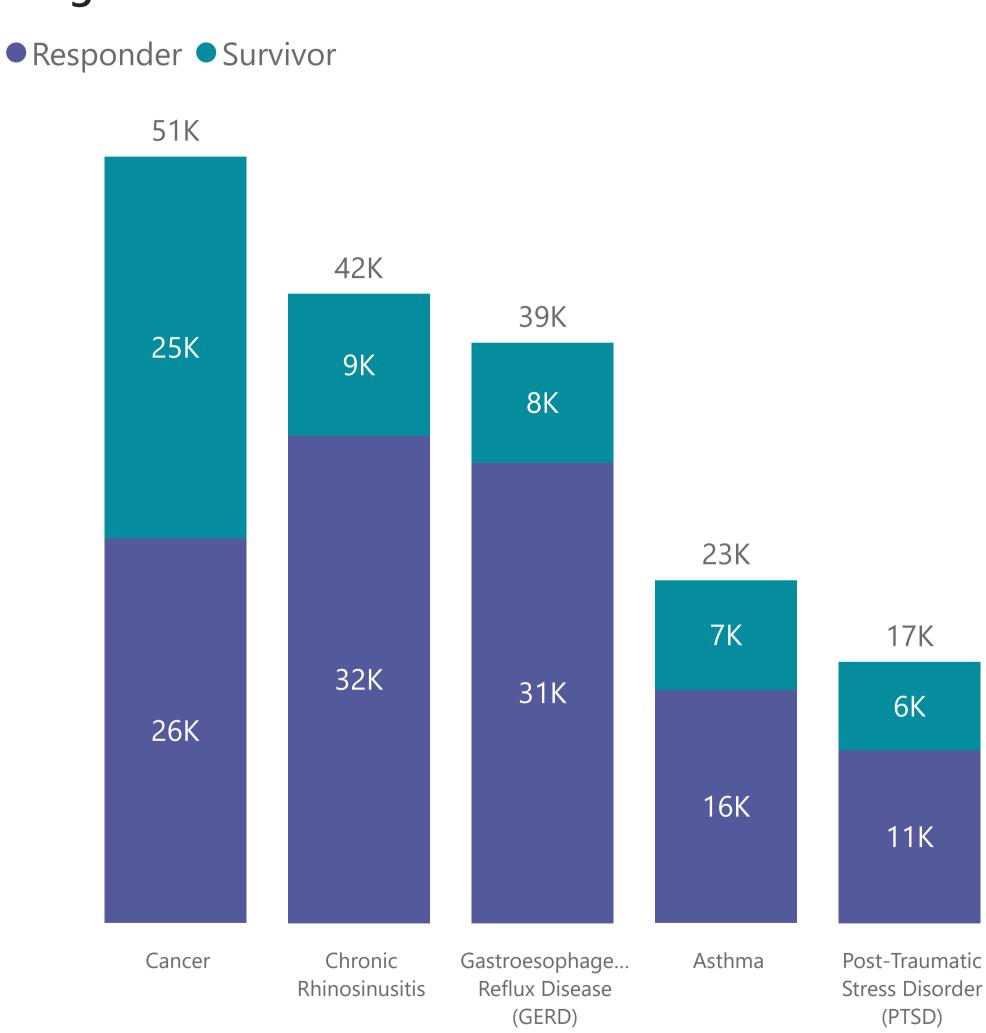

Certifications for WTC-Related Health Conditions

38. Overall Certification Counts by Member Type, Over Program Lifetime

	'	•		
Condition	Responder	Survivor	Total ▼	
Cancer	25,571	25,327	50,898	
Chronic Rhinosinusitis	32,366	9,403	41,769	
Gastroesophageal Reflux Disease (GERD)	30,596	7,941	38,537	
Asthma	15,509	7,262	22,771	
Post-Traumatic Stress Disorder (PTSD)	11,471	5,861	17,332	
Chronic Respiratory Disorder - Fumes / Vapors	8,503	1,438	9,941	
Chronic Obstructive Pulmonary Disease (COPD)	3,985	1,913	5,898	
Major Depressive Disorder	3,008	1,418	4,426	
Anxiety Disorder (not otherwise specified)	2,850	1,497	4,347	
Depression (not otherwise specified)	2,629	598	3,227

Approved Claims for Responders

44. Responders with Approved Claims by Category (Member Count)

45. Approved Responder Claims by Category (Claim Count)

46. Responder Claims by Adjudication Status (Claim Count)

Claims Data Timeline: Medical claims and cost data are presented based on the paid date of the claim.

Notes on Claims Counts: Approved Claim Lines tables do not contain inpatient professional, emergency, or claims for FDNY family members. Counts of members with claims by category may exceed total counts of members with claims because categories are not mutually exclusive/members may have claims approved under multiple categories. Because data are shown by date paid, there are no pended claims. Adjudication status refers to the process related to rendering a final decision about a claim.

Survivor Medical Utilization Patterns in Past 12 Months

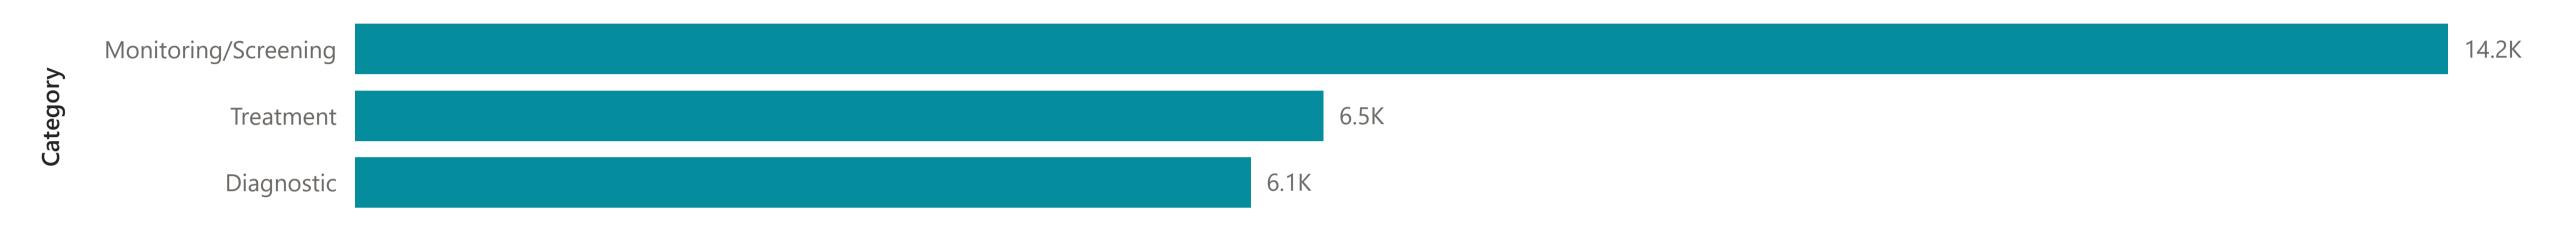

Survivors with Approved Claims

70,657
Approved Claims for Survivors

Pharmacy Utilization in Last 12 Months

56. Top 10 Therapeutic Classes of Drug by Claim Count in Past 12 Months

Most Common Therapeutic Class

Pharmacy Data Timeline: Pharmacy claims and cost data are presented based on the date of service/date filled.

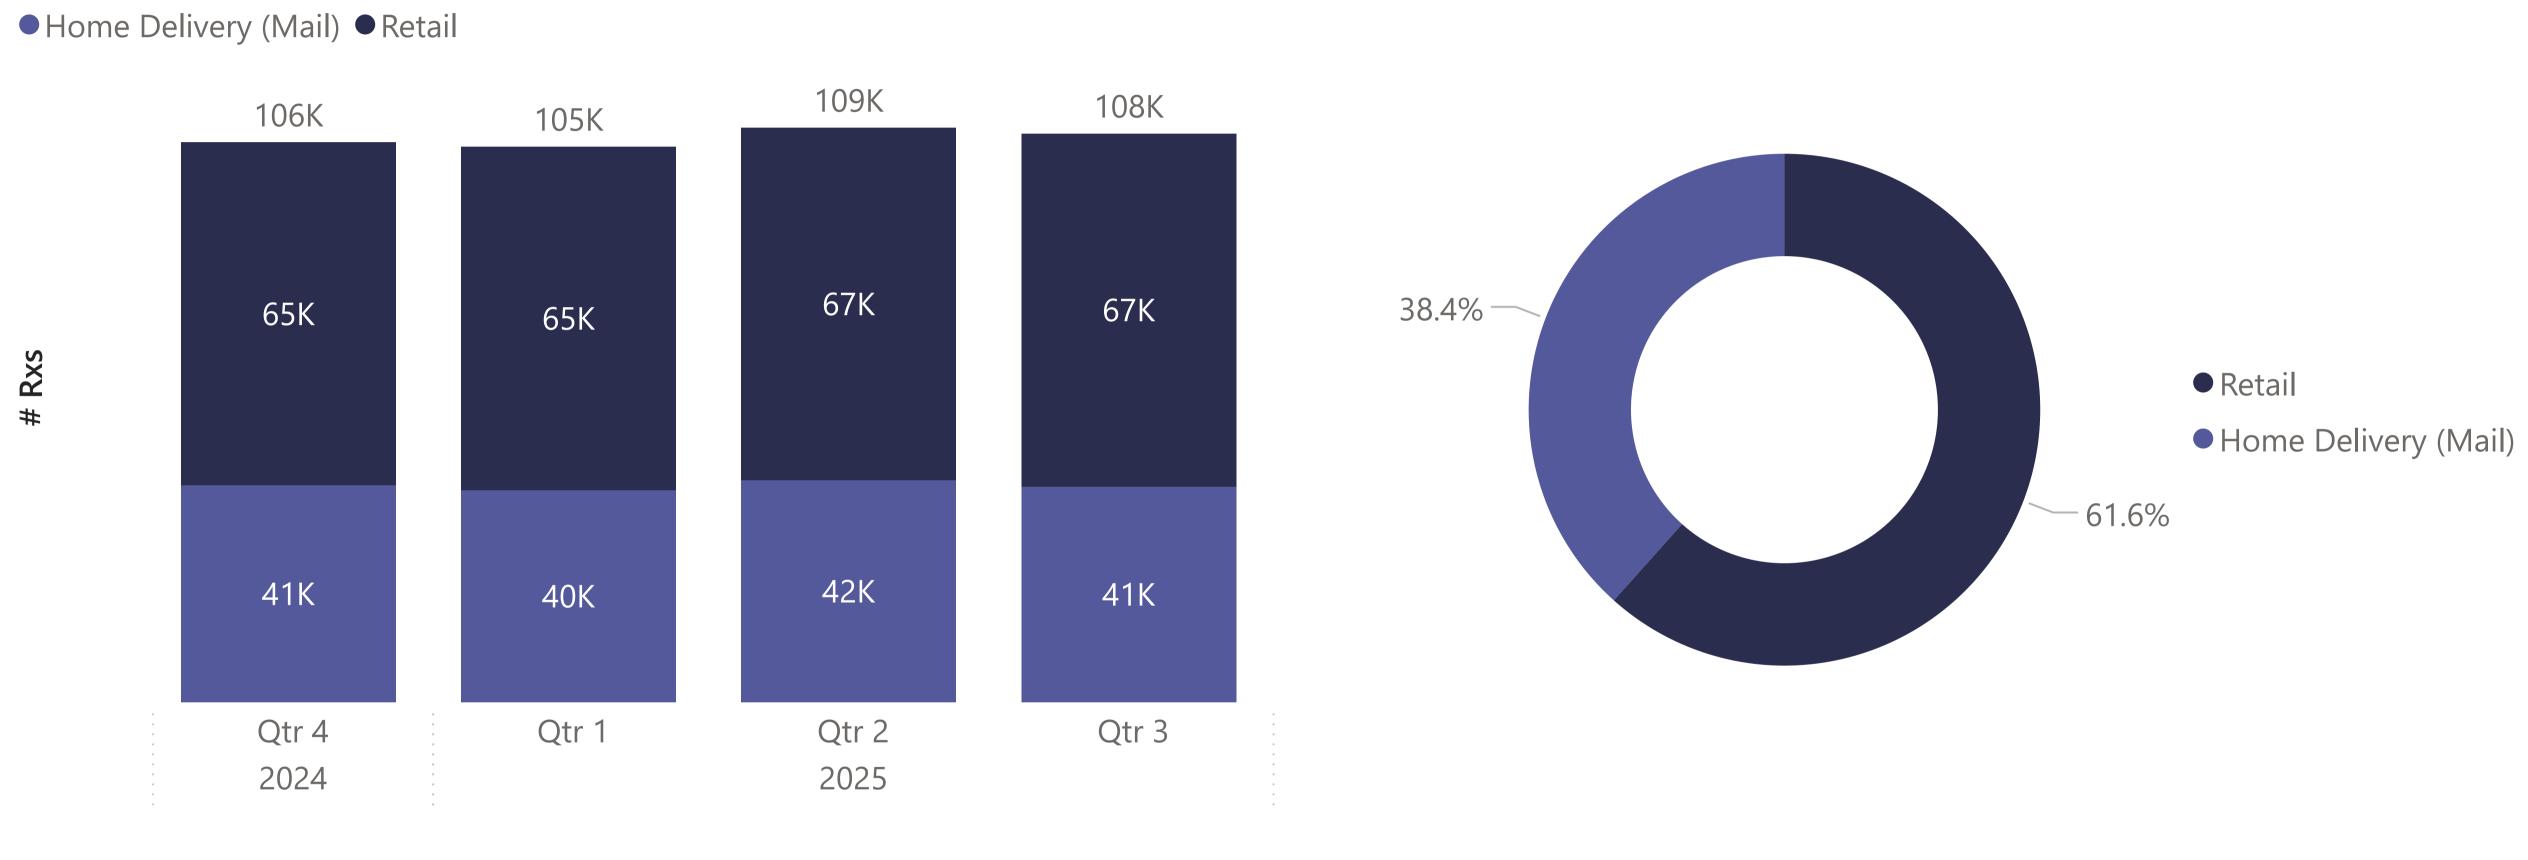

Note on therapeutic classes: Certain medications approved for covered conditions are listed under therapeutic classes that are not necessarily a covered condition for the Program. For example, although allergies are not a covered condition, medications under this therapeutic class may be used to treat covered conditions.

Disclaimer of Endorsement: Mention of any company or product does not constitute endorsement by CDC, NIOSH, or the WTC Health Program.

Responder Pharmacy Claims for Past 12 Months

58. Percentage of Pharmacy Retail/Home Delivery Utilization

Pharmacy Data Timeline: Pharmacy claims and cost data are presented based on the date of service/date filled.

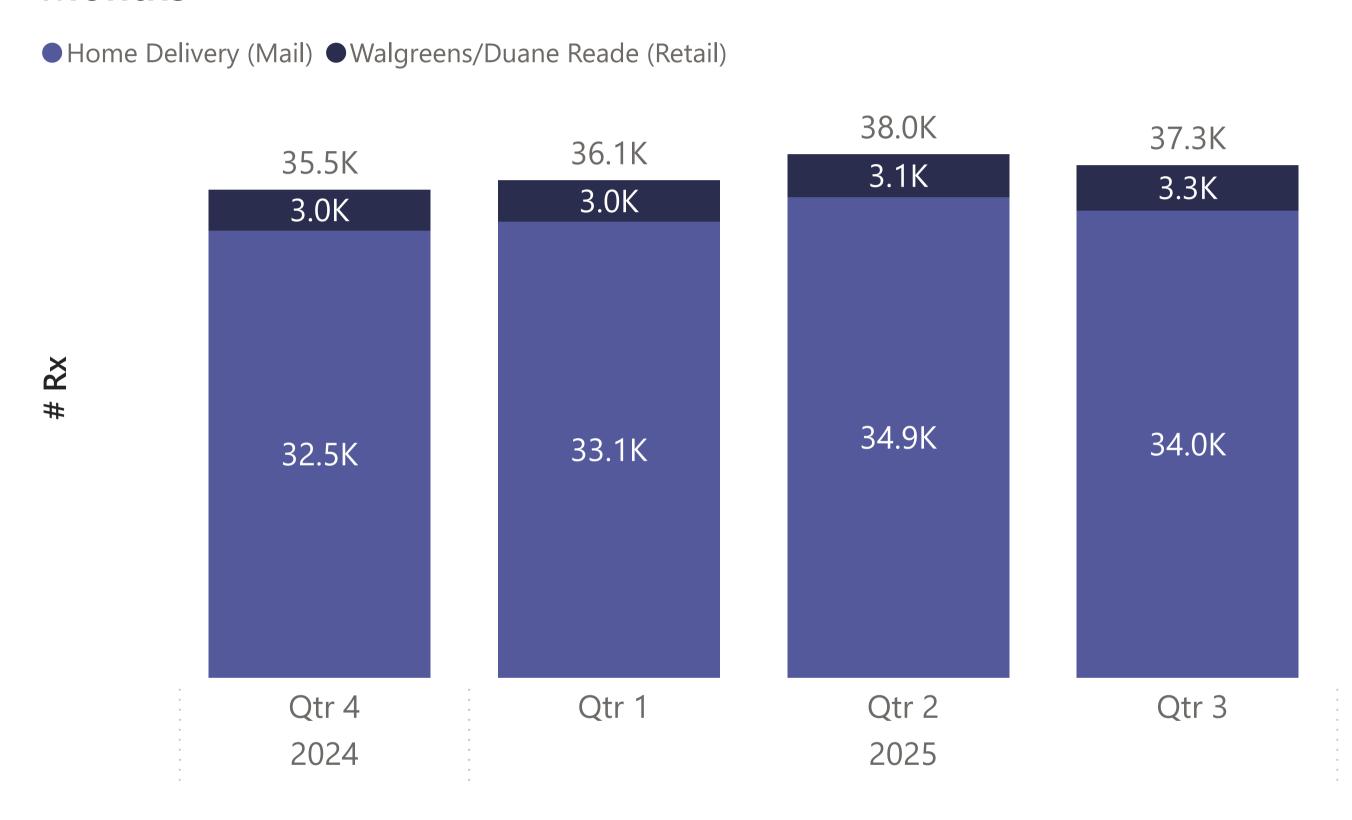

Note on Pharmacy Network for Survivors: Pharmacy claims for survivors must be coordinated with their primary insurance. Due to this requirement, the Program allows Survivors to use a larger pharmacy network than Responders for a 90-day supply to allow easier processing with Survivor members' primary insurance. The Program does not track 90-day pharmacy network utilization for Survivors.

Rx Claims Data Thru:

Responder 90-Day Fill Utilization for Past 12 Months

63. Frequency of 90-Day Fill Utilization by Responders in Past 12 Months

34.3%

of prescriptions dispensed in past 12 months were 90-Day Fills

Pharmacy Data Timeline: Pharmacy claims and cost data are presented based on the date of service/date filled.

Note on Pharmacy Network for Survivors: Pharmacy claims for survivors must be coordinated with their primary insurance. Due to this requirement, the Program allows Survivors to use a larger pharmacy network than Responders for a 90-day supply to allow easier processing with Survivor members' primary insurance. The Program does not track 90-day pharmacy network utilization for Survivors.

Disclaimer of Endorsement: Mention of any company or product does not constitute endorsement by CDC, NIOSH, or the WTC Health Program.

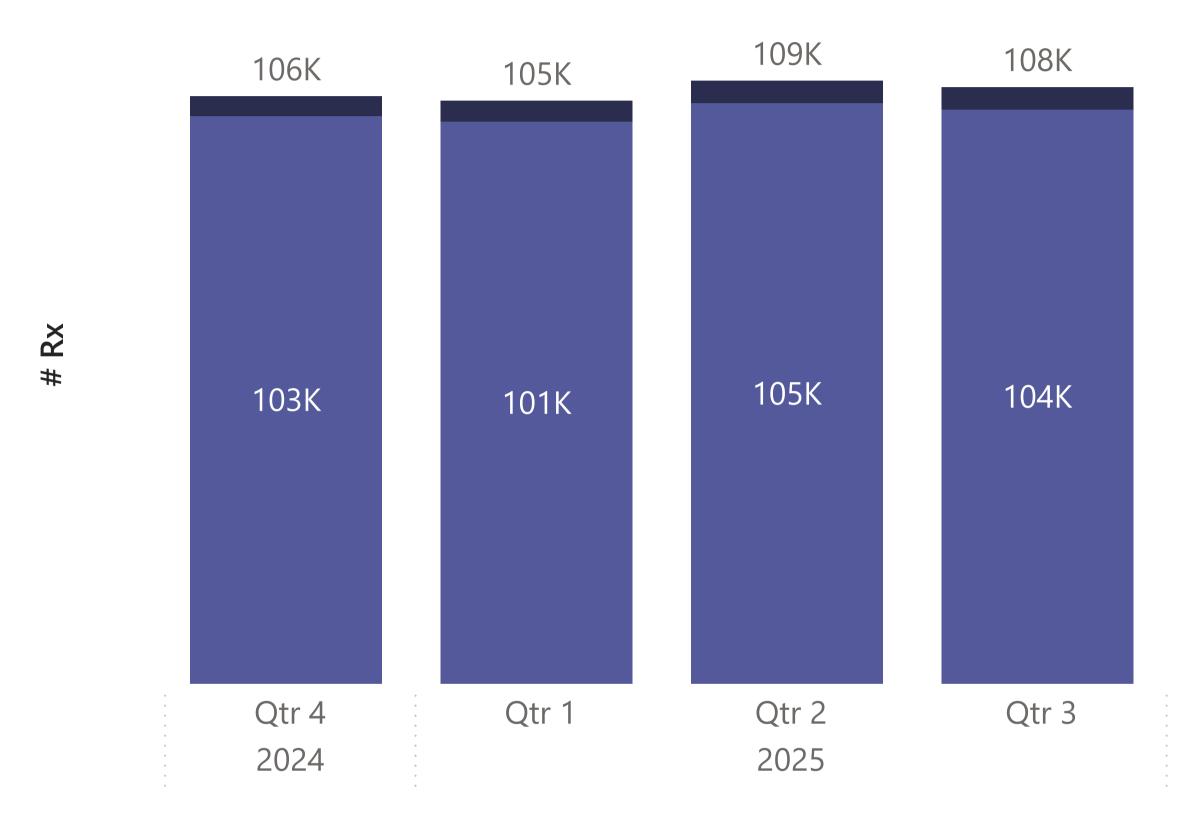

Responder Specialty Pharmacy Claims for Past 12 Months

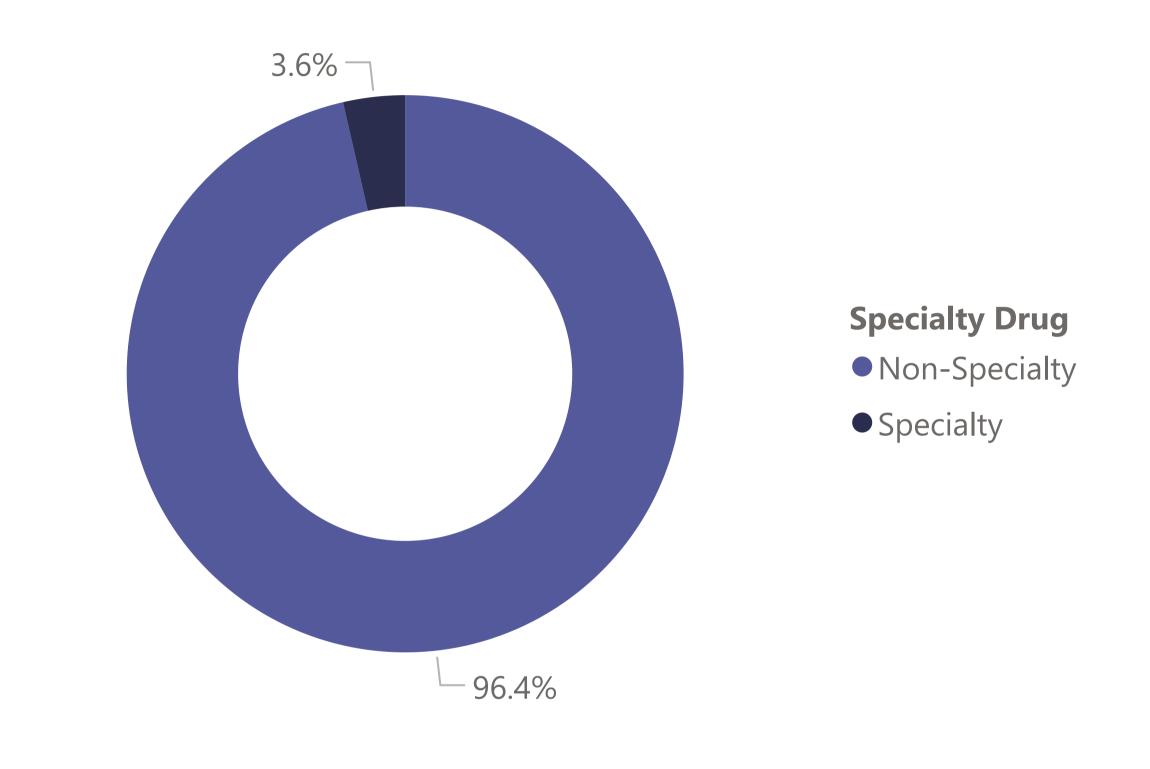

59. Responder Specialty Fill Frequency in Past 12 Months

60. Overall Specialty Drug Status for Responder Rx Claims

Pharmacy Data Timeline: Pharmacy claims and cost data are presented based on the date of service/date filled.

Specialty Medications: Defined as high-cost prescription medications used to treat complex, chronic conditions like cancer and often require special handling (such as refrigeration during shipping) and administration (such as infusions).
