

VERB™ CROSSOVER COMBINER

How to put your VERB Crossover Combiner together:

- Step #1: Remove both wheels from paper by gently releasing tabs around each wheel.
- Step #2: Bend the 4 center tabs in or down on the smaller wheel and place it over the larger wheel.
- Step #3: Insert 4 tabs through the hole in the larger wheel and secure them in the back by pressing down on the tabs.
- Step #4: Start playing! Rotate or spin wheel in either direction to combine basketball with another fun sport or activity.

Example

Basketball + Football =
End Zone Hoops

Defend your basket as though it's the end zone. Play football on the basketball court, which means running and passing with a football instead of dribbling. Once the offense gets near enough to a basket to shoot, any attempt is allowed. Defensive players jump up to block; if the opponent scores, head back the other way.

VERB™
It's what you do.
