

CDC works **24 hours a day, 7 days a week...**

We put science & data into action.

Turning new research into tools and actions that save more lives.

Tracking diseases to take the pulse of America's health.

We detect, respond, & eliminate health threats.

150+ labs identifying diseases, food-borne outbreaks, biosecurity threats, and environmental hazards.

Trusted world-class scientists discovering microbes that threaten Americans.

We strengthen & protect your community.

Working with state, local, and territorial public health departments to investigate and protect against health threats.

Providing states with support and technical know-how to increase their impact.

...to keep America **safe, healthy, and secure.**

24/7 U.S. emergency public health response.

Rapid disease detection and elimination.

Stopping diseases from reaching the U.S.

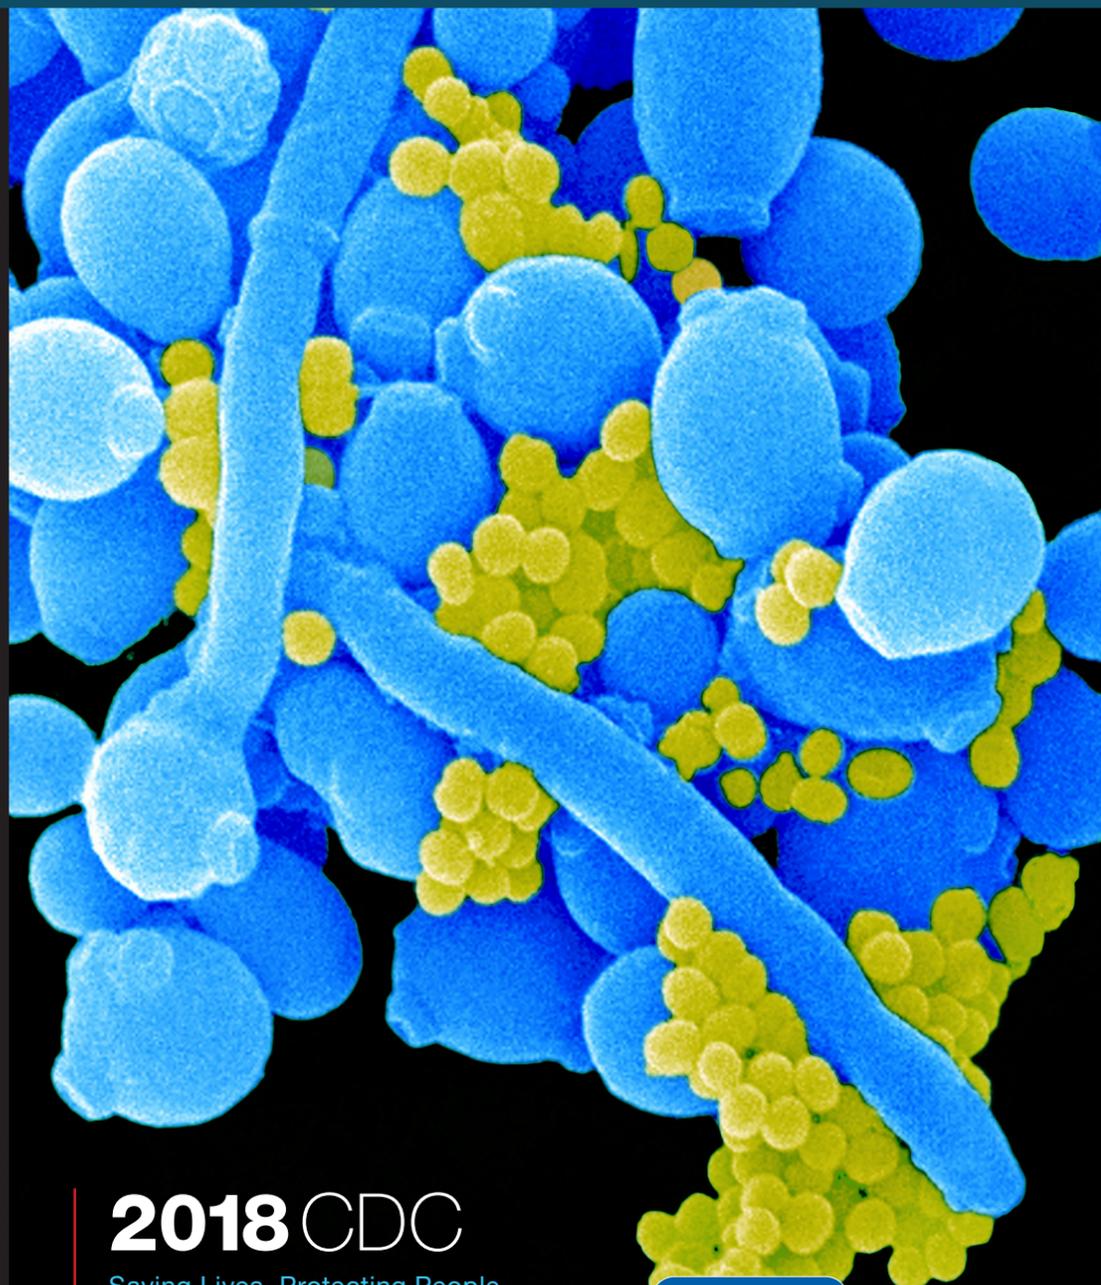

Lifesaving vaccines for outbreak response and prevention.

CDC and America's Health Security

To find out more about how you can protect against health threats visit www.cdc.gov/24-7 or 1-800-CDC-INFO

2018 CDC

Saving Lives. Protecting People.

Keeping America Safe, Healthy, & Secure.

U.S. Department of Health and Human Services
Centers for Disease Control and Prevention

We investigate.

24/7 central command to monitor health and respond to health crises.

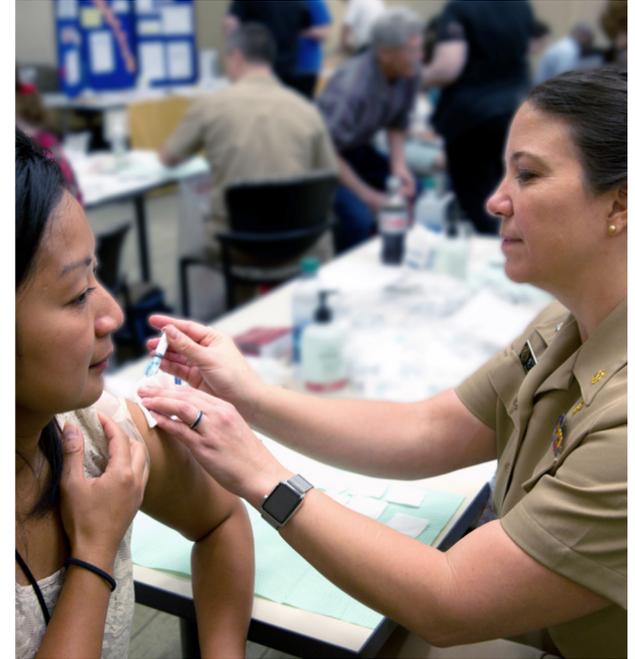

We figure out what works.

Research that leads to the best data and solutions to fight disease and protect health.

We get results.

Science-based, data-driven, lifesaving ways to defend against health threats.

CDC works to **detect, respond,** and **eliminate** disease **wherever it is.**
