WE'RE DOING IT

Testing for HIV

#DoingIt

CDC

ACT AGAINST AIDS

YOUR #DOINGIT CHECKLIST:

- **Get tested for HIV.** CDC recommends that everyone get tested for HIV at least once as part of routine health care and that people with certain risk factors get tested more often. Visit cdc.gov/DoingIt to find a testing facility near you, learn facts about HIV, and how HIV is affecting our communities.
- **Encourage others to get tested.** Gay and bisexual men accounted for an estimated 83% (29,418) of new HIV diagnoses among men.
- **Join the #DoingIt movement.** Visit cdc.gov/DoingIt to download free materials and resources to share with your network and community.
