**How Can I Start PrEP?**

- **Talk** with your doctor or health care provider to determine if PrEP is right for you.

  If you and your health care provider agree that PrEP might reduce your risk of getting HIV, he or she will test you for HIV and other sexually transmitted diseases.

- **Prescription**

  If PrEP is a good option for you, your health care provider will give you a prescription.

**How Do I Pay for PrEP?**

- **PrEP is covered** by most insurance programs.

  If you do not have insurance, your health care provider can direct you to medication assistance programs that may help pay for PrEP.

- **Claim**

  You can also contact your local health department and HIV/AIDS service organizations for more information.
