Subjective Cognitive Decline in Mississippi

1 in 8 people aged 45 and older are experiencing Subjective Cognitive Decline.

SCD is self-reported MEMORY PROBLEMS that have been getting worse over the past year.

Less Than HALF with SCD have talked to a health care provider about it.

Nearly 90% with SCD have at least one chronic condition.

Among those with SCD...

49.9% needed help with household chores.

55.6% had to give up day-to-day activities.

Nearly HALF say SCD interfered with social activities, work, or volunteering.
