GENERAL INFORMATION

Learning Objectives

Upon completion of this activity, participants will be able to:

1. Interpret the scope and impact of antimicrobial overuse across inpatient, outpatient, and long term care settings in the U.S.
2. Develop effective stewardship messages to target specific audiences: health care professionals, administrators, and the public.
3. Interpret national regulatory changes for antimicrobial stewardship that will likely result from the President's recent executive order to combat antibiotic resistant bacteria.
4. Apply effective behavior change and quality improvement strategies to impact organizational culture and processes towards optimizing antimicrobial stewardship efforts.
5. Interpret research, computerized decision support, and educational materials that are likely to accelerate acceptance of antimicrobial stewardship practices.

Target Audience

This continuing medical education program is designed to meet the educational needs of physicians, nurses, pharmacists and administrators from acute care, long term care, and primary care.

Conference Location, Date and Time

The program will be held in the Feinberg Pavilion Conference Center, third floor
Northwestern Memorial Hospital
251 East Huron Street
