Katie Couric,
Co-Founder EIF's
National Colorectal
Cancer Research Alliance

Really?

Did you know that of cancers affecting both men and women, colorectal cancer is the second leading cancer killer? But this is one cancer you can prevent. Get screened!

Screening tests help find polyps so they can be removed before they turn into cancer.

So, if you're 50 or older, do everything you can to prevent colorectal cancer. Screening really does save lives!
