The spreadsheet contains information from awardees of the National Comprehensive Cancer Control Program and the National Breast and Cervical Cancer Early Detection Program. The tribes and territories listed do not represent all federally recognized tribes and territories. Data was collected through correspondence with Program Directors and CDC Program Consultants; Legislative activities tracked in collaboration with contractor.

Chart Legend

- Program

Includes awardees of the National Comprehensive Cancer Control Program and the National Breast and Cervical Cancer Early Detection Program
- Additional Colorectal Cancer CDC Comprehensive Cancer Control Funds Awarded

Funds may be used on awareness and advocacy activities; does not fund colorectal cancer screening
- CRC Screening Program/Funding Source

Program is population-based and provides screening and diagnostic services, and provides or facilitates referral to treatment; may not be state-wide

Federal Funding - Funding from federal agencies

State Funding - Funding from the state government to support screening; this information does not distinguish between state-funded and state-wide screening programs

Other Funding - Includes non-federal and non-state funds from a variety of sources including: medical partnerships, hospitals, city/county health departments, pharmaceutical companies, and in-kind services
- Primary Screening Test

Subset of first set of columns in purple, where colorectal cancer screening programs are identified
- Legislative Activity

Mandated Insurance Coverage for Screening - Enacted legislation mandating statewide insurance companies to provide colorectal cancer screening

CRC - Colorectal cancer      ACG - American College of Gastroenterology      ACS - American Cancer Society
- Participation in Dialogue for Action and/or Capacity Study

Dialogue for Action - includes Dialogue for Action meetings coordinated by the Prevent Cancer Foundation (the majority identified) or locally arranged "Dialogue for Action" meetings

AI/AN Tribal organizations that also held a Dialogue for Action (not listed above) include: Black Hills Center for American Indian Health, Ho-Chunk Nation, Inter-Tribal Council of Michigan, Mashantucket Pequot Tribal Nation, Texas Gulf Coast of AI/AN Community, and Urban Indian Health Institute

Capacity Study - Participation in study (federal, state, local, other) to assess capacity for colorectal cancer screening
