[Announcer] As a parent, you work hard to keep your baby healthy, by giving lots of love… providing healthy foods.

Keeping little hands, feet, and faces clean. Getting plenty of physical activity, and vaccination. Nothing protects babies better from 14 serious diseases by age two.

That’s why doctors recommend and parents choose the safe, proven protection of vaccination. Vaccination, a key piece of the puzzle. For more reasons to vaccinate, talk to your child’s doctor, or go to www.cdc.gov/vaccines/parents.
