If you or your family get cholera

Help your child use a latrine or a bucket for diarrhea. Empty the bucket into a latrine.

Wash your hands after cleaning up your child. Wash your child’s hands, too. Use soap and clean water.

Make oral rehydration solution (ORS) right away.

Give your child a lot of oral rehydration solution (ORS). Keep breastfeeding your child if he/she is breastfed.

Go to the clinic as soon as you can. Give your child more oral rehydration solution (ORS) or breast milk on the way.
