THE LEADING CAUSES OF DEATH AND DISABILITY

Leading Drivers of the Nation’s $3.3 Trillion in Annual Health Care Costs

Heart Disease, Cancer, Chronic Lung Disease, Stroke, Alzheimer’s Disease, Diabetes, Chronic Kidney Disease
THE KEY LIFESTYLE RISKS FOR CHRONIC DISEASE

- Tobacco Use
- Poor Nutrition
- Lack of Physical Activity
- Excessive Alcohol Use
NCCDPHP PREVENTS CHRONIC DISEASE AND PROMOTES HEALTH FOR PEOPLE OF ALL AGES

- Improving Quality of Life
- Increasing Healthy Life Expectancy
- Reducing Health Care Costs
WE WORK TO IMPROVE HEALTH ACROSS THE LIFE SPAN

Where People Live, Learn, Work, and Play

**Infants**
Reduce the leading causes of infant death and illness.

**Children & Adolescents**
Help support healthy communities, child care programs, and schools so children can eat well, stay active, and avoid risky behaviors.

**Adults**
Help adults lead healthy and active lives and increase the use of preventive services like cancer screenings.

**Older Adults**
Promote quality of life and independence for people as they age.
Find out how chronic diseases affect populations in the United States.

Study interventions to find out what works best to prevent and control chronic diseases.

Fund and guide states, territories, cities, and tribes to use interventions that work.

Share information to help all Americans understand the risk factors for chronic diseases and how to reduce them.

**What We Do**

**How We Do It**

**MEASURE**
how many Americans have chronic diseases or chronic disease risk factors.

**IMPROVE**
environments to make it easier for people to make healthy choices.

**STRENGTHEN**
health care systems to deliver prevention services that keep people well and diagnose diseases early.

**CONNECT**
clinical services to community programs that help people prevent and manage their chronic diseases and conditions.
MISSION AND VISION

Vision
Healthy people in healthy communities

Mission
To help people and communities prevent chronic diseases and promote health and wellness for all
