

Lewin Report: The Status of Laboratory Medicine

This report, being prepared by The Lewin Group as a subcontractor in partnership with Battelle, will describe the current demographics of the field of laboratory medicine and the factors shaping its current and future status. The purpose of the report is to provide a comprehensive picture of the current status of laboratory medicine and probable challenges to it in the next five to ten years, to provide baseline information to professional organizations, government agencies and others who provide, use, regulate, or pay for laboratory services.

Table of Contents

Chapter 1. Introduction

Chapter 2. Value of Laboratory Medicine

Chapter 3. Market Profile

Chapter 4. Workforce

Chapter 5. Quality Issues and Errors in the Total Testing Process

Chapter 6. Quality Systems and Performance Measurement

Chapter 7. Laboratory Information and Automation Technology

Chapter 8. Regulation

Chapter 9. Reimbursement

Chapter 10. Future Trends in Laboratory Medicine

Chapter 11. Summation of Key Findings
