Healthy Habits Equal Healthy Eyes

You Only Have One Pair of Eyes, So Take Care of Them!

YOUR HABITS
- Wash and dry your hands before touching your contact lenses.
- Don’t sleep in your contact lenses (unless your eye doctor tells you otherwise).
- Avoid wearing contact lenses while showering, swimming, or using a hot tub.

YOUR SUPPLIES
- Rub and rinse your contact lenses with solution each time you clean them. Never use water or spit!
- Use only the solution your eye doctor tells you to use.
- Only use fresh disinfecting solution in your case—don’t mix new with old.
- Never store your contact lenses in water.
- Replace your contact lenses as often as your eye doctor says.
- Rub and rinse your case every day with solution, dry with a clean tissue, and store upside down with the caps off.
- Get a new case at least every three months.

YOUR EYE DOCTOR
- Visit your eye doctor once a year—or more often if needed.
- Ask questions about how to care for your lenses and case.
- Take out your contact lenses and call your eye doctor if you have eye pain, red eyes, or blurred vision.

And remember: always be prepared! Carry a pair of glasses in case you need to take out your contact lenses.
