

Travelers Returning Home

The Centers for Disease Control and Prevention is working to help keep you and your community safe from the threat of novel, or new coronavirus.

If you must travel, or have already traveled, to a country with a widespread outbreak of COVID-19, stay home and check your health for 14 days after returning to the United States.

Visit us at [c-d-c dot gov](https://www.cdc.gov) for guidance on how to check your health, and how to protect yourself and others from COVID-19.
