

## **Domestic: Stay Home – PSA #1**

### **Stay Home, Except for Essentials**

This is a message from the Centers for Disease Control and Prevention. CDC is working to help keep you and your community safe from the threat of novel, or new, coronavirus. COVID-19 is spreading in the United States, and leaving your home increases your chances of getting and spreading the virus. CDC recommends you stay home except to get groceries, medications, or other essentials.
