You have traveled internationally and are at higher risk.

COVID-19 is a respiratory illness that can spread from person to person.

Stay Home

- Stay home for the next 14 days, monitor your health, and practice social distancing.
- Take your temperature with a thermometer two times a day and watch for symptoms.
- Avoid contact with others. Do not go to work or school.
- Keep your distance from others (about 6 feet or 2 meters).

Symptoms

Illnesses have ranged from mild symptoms to severe illness and death. Symptoms may appear 2–14 days after exposure.

Symptoms can include:

- Fever
- Cough
- Trouble breathing

If you feel sick and have symptoms:

- Stay home. Avoid contact with others.
- You might have COVID-19; most people are able to recover at home without medical care.
- If you have trouble breathing or are worried about your symptoms, call or text a healthcare provider. Tell them about your recent travel and your symptoms.
- Call ahead before you go to a doctor’s office or emergency room.
