CHECKLIST FOR STAFF
Public pools, hot tubs, water playgrounds, and beaches

☐ PROMOTE VACCINATION AGAINST COVID-19 for everyone 12 years and older.

☐ Encourage staff and visitors to STAY HOME IF SICK.

☐ Encourage people age 2 years and older who are not fully vaccinated* to WEAR MASKS indoors, except in the water.

☐ Encourage people who are not fully vaccinated* to STAY AT LEAST 6 FEET APART—in and out of the water, indoors and outdoors—from people they don’t live with. Modify layouts and arrangements of tables, chairs, and umbrellas to keep people at least 6 feet apart.

☐ DISCOURAGE SHARING ITEMS that come in contact with the face (such as goggles, nose clips, and snorkels).

☐ Remind staff and visitors to WASH THEIR HANDS OFTEN with soap and water for at least 20 seconds or use hand sanitizer with at least 60% alcohol.

☐ MAKE SURE THERE ARE ENOUGH SUPPLIES, such as soap, hand sanitizer, paper towels, tissues, and no-touch trash cans.

☐ IMPROVE VENTILATION indoors by adjusting settings for the heating, ventilation, and air conditioning (HVAC) system.

☐ CLEAN frequently touched surfaces—such as tables, lounge chairs, pool noodles, door handles, restrooms, and other equipment—at least once a day.

☐ POST SIGNS WITH COVID-19 PREVENTION STEPS, make announcements on the PA system, and include prevention steps on flyers, in emails, and in other communications.

* People are fully vaccinated 2 weeks after their second dose of a 2-dose vaccine (such as the Pfizer-BioNTech or Moderna vaccine) or 2 weeks after a single-dose vaccine (such as Johnson & Johnson’s Janssen vaccine).

Now, let’s swim!
